Reconsideration of Science and Technology III Liu Dachun, Yang Huili, Fan Shanshan, 2022-09-30 Drawing on debates from traditional and postmodern thoughts on science and technology the title builds a new theoretical framework to reconsider science and technology integrating the opposing viewpoints that either justify science or negate it As the third volume of a three volume set that proposes to reconsider science and technology and explores how the philosophy of science and technology responds to an ever changing world this final volume seeks to restore the cultural implications of science Across the six chapters the authors probe the prospect of a pluralistic scientific culture including discussions of diversified value choices the tension between reason and unreason other binary characteristics of scientific knowledge including objectivity and uniqueness universality and locality as well as the loss awakening and reconstruction of scientific culture The authors call for a transformation of scientific culture from a dominant culture to an affirmative one and envision a free and open world of science and technology The volume will appeal to scholars and students interested in the philosophy of science and technology the ideology of scientism and anti scientism modernism and postmodernism Marxist philosophy and topics related to scientific culture **Learner Corpora: Construction and Explorations in Chinese and Related Languages**

Howard Hao-Jan Chen, Keiko Mochizuki, Hongyin Tao, 2023-04-02 This edited book reflects the state of the art in learner corpus and related approaches to Chinese as a second language CSL CSL as a field has flourished in the past few decades due to the increasingly important role of the Chinese language at the world stage yet studies of Chinese as a second language based on learner corpora have been less well developed due to the limited availability of data and lack of

theoretical insights This book represents the latest research in this area by 1 assembling a large group of active researchers from multiple international research communities USA China Hong Kong Macau Japan Taiwan and France 2 discussing the latest resources and technologies in Chinese and other Asian languages learner corpora and corpus building 3 basing Chinese as a second language studies on data from learners of Chinese with a wide range of first language backgrounds English Japanese Korean French among others and 4 integrating corpus methods with a wide range of related methods in allied fields language acquisition usage based linguistics psycholinguistics and neurolinguistics This comprehensive collection is indispensable for anyone who is interested in corpus approaches to CSL and Chinese applied language studies in general

Mathematical Intuition R.L. Tieszen, 2012-12-06 Intuition has perhaps been the least understood and the most abused term in philosophy It is often the term used when one has no plausible explanation for the source of a given belief or opinion According to some sceptics it is understood only in terms of what it is not and it is not any of the better understood means for acquiring knowledge In mathematics the term has also unfortunately been used in this way Thus intuition is sometimes portrayed as if it were the Third Eye something only mathematical mystics like Ramanujan possess In mathematics the notion has also been used in a host of other senses by intuitive one might mean informal or non rigorous or visual or holistic or incomplete or perhaps even convincing in spite of lack of proof My aim in this book is to sweep all of this aside to argue that there is a perfectly coherent philosophically respectable notion of mathematical intuition according to which intuition is a condition necessary for mathematical knowledge I shall argue that mathematical intuition is not any special or mysterious kind of faculty and that it is possible to make progress in the philosophical analysis of this notion This kind of undertaking has a precedent in the philosophy of Kant While I shall be mostly developing ideas about intuition due to Edmund Husserl there will be a kind of Kantian argument underlying the entire book
