Stromquist, Institute for Lifelong Learning, 2009 Re-negotiating Gender Lake Lui, 2012-09-03 In Chinese societies where both money and gender confer power can a woman s economic success relative to her husband s bring about a more equal division of household labor Lui s qualitative study of status reversed Hong Kong families wherein wives earn more than their husbands examines how couples re negotiate household labor in ways that perpetuate male dominance within the family even when the traditional gender expectation that men rule outside women rule inside nanzhuwai nuzhunei is challenged Going beyond the dyadic negotiation of household labor this important study also explores the role of third parties namely the couples children and parents who actively encourage couples to conform to traditional gender norms thereby reproducing an unequal division of household labor Based upon the experiences of families with stay at home dads Lui further identifies a new mechanism of deconstructing gender by which couples concertedly construct new norms of work and gender that they maintain through daily interactions to fit their atypical relative earnings As a result there are sparks of hope that both men and women can be liberated from a set of traditional social norms Re negotiating Gender Household Division of Labor When She Earns More than He Does is essential reading in the fields of family and gender studies sociology psychology and East Asian studies The Oxford Handbook of Mobile Communication and Society Rich Ling, Leopoldina Fortunati, Gerard Goggin, Sun Sun Lim, Yuling Li, 2020-04-06 Mobile communication has dramatically changed over the past decade with the diffusion of smartphones Unlike the basic 2G mobile phones which merely facilitated communication between individuals on the move smartphones allow individuals to communicate to entertain and inform themselves to transact to navigate to take photos and countless other things Mobile communication has thus transformed society by allowing new forms of coordination communication consumption social interaction and access to news entertainment All of this is regardless of the space in which users are immersed Set in the context of the developed and the developing world The Oxford Handbook of Mobile Communication and Society updates current scholarship surrounding mobile media and communication The 43 chapters in this handbook examine mobile communication and its evolving impact on individuals institutions groups societies and businesses Contributors examine the communal benefits social consequences theoretical perspectives organizational potential and future consequences of mobile communication Topics covered include among many other things trends in the Global South location based services and the appification of mobile communication and society **A Critique of Liberal Cynicism** Will Barnes, 2022-07-26 Where does Extreme Liberal Cynicism so common in academic and popular culture come from and is it capable of solving the problems it identifies A Critique of Liberal Cynicism Peter Sloterdijk Judith Butler and Critical Liberalism identifies the motivations and resources within liberal

cynicism and their potential for overcoming its pernicious extremes Will Barnes describes Extreme Liberal Cynicism as a product of mourning guilt and the experience of powerlessness stemming from the trauma of holding liberal investments in a world in which these investments are vulnerable to ideological critique and seem to have failed Extreme Liberal Cynicism seeks invulnerability through disavowing the efficacy of its constitutive ideals achieved via a reified hopelessness that eclipses trauma guilt and disempowerment leaving the cynic unhappy alienated hostile obstinate delusional and desperate thus it is a failing self defense mechanism Barnes argues that although Extreme Liberal Cynicism is rationally unjustifiable and intrinsically harmful it also contains the impetus for a reappropriation of its complex desires and losses This adjustment could compel the extreme cynic to maintain a moderate critical liberal cynicism committed to critiquing and reinvigorating its constitutive ideals of freedom equality and justice and thereby contribute positively to progressive politics
