Ron Field,2006-10-31 Despite modern perceptions of the overwhelming image of Confederate soldiers dressed in their classic battledress gray the Southern states of the Confederacy fielded many units of volunteer troops wearing a remarkably wide variety of uniforms often reflecting foreign influences In a spirit of independence many states also issued their own uniform regulations on the outbreak of the War Between the States and these non standard uniforms were often retained until well into the course of the Civil War 1861 1865 The regulation patterns centrally prescribed by the Confederate Army were only ever followed unevenly and state quartermasters continued to issue uniforms showing regional and state differences This fourth of a series of six titles studies the archival and pictorial evidence for the infantry cavalry and artillery of Virginia the heart of the Confederacy and its richest most populous and militarily strongest state and of Arkansas which despite its much smaller population fielded several interesting units The expert text which draws extensively on contemporary documents is illustrated largely with fascinating early photographic portraits showing the haunting faces of the young soldiers caught up in the horror of war and classic color artwork recreations of their uniforms
