series not only contains a wealth of accompanying photographs and illustrations including eight full page colour plates by Mike Chappell but is extended by a further 16 pages allowing the author to display the full range of his expert knowledge including 11 pages devoted to uniforms *Dien Bien Phu 1954* David Stone,2018-10-26 The French strategy of seeking to establish a fortified base across the Viet Minh's route to and from Laos provoked an awesome struggle that lasted from November 1953 to May 1954. During this time Dien Bien Phu, surrounded by 2000 ft hills and thus difficult to resupply by air as the French had intended, became the scene of fearful contests between the locally savvy men of General Giap and the hapless French forces who, losing one strongpoint after another, were finally trapped in Dien Bien Phu garrison. The French lost the cream of their strategic reserve in the region and within months were agreeing to the independence of Vietnam, Laos and Cambodia. David Stone, a British Army officer of the post World War II era, leads the reader through the complex nature of this significant action.

**Dien Bien Phu** Anthony Tucker-Jones,2017-08-30 When the world held its breath. It is 25 years since the end of the Cold War, now a generation old. It began over 75 years ago in 1944, long before the last shots of the Second World War had echoed across the wastelands of Eastern Europe with the brutal Greek Civil War. The battle lines are no longer drawn but they linger on unwittingly or not in conflict zones such as Iraq, Somalia and Ukraine. In an era of mass produced AK 47s and ICBMs, one such flashpoint was French Indochina. At the end of the Second World War, France sought to reassert its military prestige but instead suffered humiliating defeat at Dien Bien Phu in French colonial Indochina. The First Indochina War became a textbook example of how not to conduct counterinsurgency warfare against nationalist guerrillas. Anthony Tucker Jones guides the reader through this decisive conflict with a concise text and contemporary photographs providing critical insight into the conduct of the war by both sides and its wider ramifications. The Viet Minh, after resisting the Japanese in Indochina, sought independence for Vietnam from France. The French, with limited military resources, moved swiftly to reassert control in 1945, sparking a decade-long conflict. French defense of Hanoi rested on holding the Red River Delta, making it a key battleground. When the Viet Minh invaded neighboring Laos, the French deployed to fight a set piece battle at Dien Bien Phu in 1954 but instead were trapped. All relief attempts failed and French defenses were slowly overwhelmed. America considered coming to the garrisons' rescue using nuclear weapons but instead left it to its fate, which set the scene for the Algerian and the Vietnam conflicts.

**Sea of Troubles** Ian Rutledge,2023-10-17 In the mid eighteenth century, most of the Mediterranean coastline and its hinterlands were controlled by the Ottoman Empire, a vast Islamic power regarded by Christian Europe with awe and fear. By the end of the First World War, however, this great civilisation had been completely subjugated and its territories occupied by European powers. *Sea of Troubles* is the definitive account of the European conquest of the Levant and North Africa over three centuries. Ian Rutledge reveals the intense imperial rivalry between six European powers: Britain, France, Italy, Spain, Austria-Hungary and Russia, who all jostled for control of the trade lands and

wealth of the Islamic Mediterranean The competition between these states made their conquest a far more difficult and extended task than they encountered elsewhere in the world Yet as new contenders entered the contest and as rivalries intensified in the early twentieth century events would spiral out of control as the continent headed towards the First World War
