WHO ARE AMERICA'S
HOMEGROWN **TERRORISTS** AND
HOW DO WE STOP THEM?

PETER BERGEN

United States Of Jihad Investigating Americas Homegrown Terrorists

Katrin Zwirgmaier

United States Of Jihad Investigating Americas Homegrown Terrorists:

United States of Jihad Peter Bergen, 2017-02-07 A riveting panoramic look at homegrown Islamist terrorism from 9 11 to the present Since 9 11 more than three hundred Americans born and raised in Minnesota Alabama New Jersey and elsewhere have been indicted or convicted of terrorism charges Some have taken the fight abroad an American was among those who planned the attacks in Mumbai and more than eighty U S citizens have been charged with ISIS related crimes Others have acted on American soil as with the attacks at Fort Hood the Boston Marathon and in San Bernardino What motivates them how are they trained and what do we sacrifice in our efforts to track them Paced like a detective story United States of Jihad tells the entwined stories of the key actors on the American front Among the perpetrators are Anwar al Awlaki the New Mexico born radical cleric who became the first American citizen killed by a CIA drone and who mentored the Charlie Hebdo shooters Samir Khan whose Inspire webzine has rallied terrorists around the world including the Tsarnaev brothers and Omar Hammami an Alabama native and hip hop fan who became a fixture in al Shabaab s propaganda videos until fatally displeasing his superiors Drawing on his extensive network of intelligence contacts from the National Counterterrorism Center and the FBI to the NYPD Peter Bergen also offers an inside look at the controversial tactics of the agencies tracking potential terrorists from infiltrating mosques to massive surveillance at the bias experienced by innocent observant Muslims at the hands of law enforcement at the critics and defenders of U S policies on terrorism and at how social media has revolutionized terrorism Lucid and rigorously researched United States of Jihad is an essential new analysis of the Americans who have embraced militant Islam both here and abroad Washington Post Notable Non Fiction Books in 2016

The Jihadi Next Door Kimberly Mehlman-Orozco, 2019-01-15 The recruitment of ISIS terrorists may have begun as an extremist crusade in Iraq but it has quickly become a global phenomenon that is taking hold of people from diverse backgrounds cultures and belief systems The iconic image of a terrorist as an old angry middle eastern man is long gone It has since been replaced by young men and women of all races and religious upbringings in tactical gear and ski masks carrying heavy artillery From the outside looking into the Islamic State most people see these men and women as nothing more than evil terrorists with a psychotic penchant for violence Internally they perceive themselves as freedom fighters or mujahideen who violate the laws of men to protect their community according to the will of Allah Ultimately neither of these perceptions are based in reality While some experts claim that terrorist recruitment is completely random criminologist Kimberly Mehlman Orozco has identified clear patterns which can be used to explain how regular people are being conscripted into terrorism Using interviews with convicted terrorists in depth research and analysis of extremist propaganda and case specific details Dr Mehlman Orozco provides nuanced theories into the methods of terrorist recruitment methods which can be used to identify persons at high risk of being targeted The Jihadi Next Door provides unprecedented information that can be used to actually combat terrorism By laying bare the tactics used by ISIS to deceive and exploit new

recruits and exposing the veneer these extremists operate under Dr Mehlman Orozco hopes to empower readers with the knowledge needed to prevent future recruitment and thereby preventing acts of terrorism Homegrown Alexander Meleagrou-Hitchens, Seamus Hughes, Bennett Clifford, 2020-11-12 How big is the threat posed by American ISIS supporters How many Americans have joined ISIS and how many want to return to the United States Compared to participation by Americans in other jihadist groups the scale of American involvement in jihadist activity today is unprecedented This book from one of the leading counter terror centres draws on first hand interviews with former American Islamic State members and law enforcement officials who tracked them and includes detailed analysis of the court cases against them and their social media presence Homegrown reveals how and why ISIS was able to radicalize and recruit a new generation of jihadist sympathizers in America *The Ethics of Counterterrorism* Isaac Taylor, 2018-05-11 States across the globe spend billions of dollars fighting terrorism annually As well as strategic questions about the way in which the money should be spent we are also confronted with a host of moral issues here many of which are poorly understood The Ethics of Counterterrorism offers the first systematic normative theory for guiding assessing and criticising counterterrorist policy Many commentators claim that state actors combating terrorism should set aside ordinary moral and legal frameworks and instead bind themselves by a different and generally more permissive set of ethical rules than is appropriate in other areas The book assesses arguments for this view and more specifically investigates whether widely endorsed restrictions on state action in the areas of surveillance policing armed conflict criminal justice diplomacy and cultural integration need to be weakened when we are confronted with terrorist threats With its novel overall framework for assessing counterterrorist strategies its comprehensive analysis of existing practices and its bringing the tools of analytic philosophy to bear on new questions regarding how states can fight terrorism both effectively and morally The Ethics of Counterterrorism promises to be an important point of reference for future debates in this area **Abolishing Surveillance** Chris Robé, 2023-09-05 The Department of Justice sought information on all who visited the DisruptJ20 org website for Donald Trump s inauguration Undercover agents infiltrate BlackLivesMatter protests Police routinely command bystanders to stop filming them by falsely claiming it is a crime Agricultural states like Iowa Idaho Utah and Wyoming enact laws that criminalize the filming of factory farm cruelty while allowing other the human animal suffering to continue unabated Dissent and poverty are increasingly criminalized by the state as precarity grows Abolishing Surveillance offers the first in depth study of how various communities and activist organizations are resisting such efforts by integrating digital media activism into their actions against state surveillance and repression and for a better world The book focuses on a wide array of movements within the United States such as Latinx copwatching groups in New York City Muslim and Arab American communities in Minneapolis undercover animal rights activists and counter summit protesters to explore the ways in which government surveillance and repression impacts them and more importantly their different but related online and offline tactics and strategies employed for self determination and

liberation Digital media production becomes a core element in such organizing as cell phones and other forms of handheld technology become more ubiquitous Yet such uses of technology can only be successfully employed when built upon strong grassroots organizing that has always been essential for social movements to take root Neither idealizing nor disparaging the digital media activism explored within its pages *Abolishing Surveillance* analyzes the successes and failures that accompany each case study The book explores the historically shifting terrain since the 1980s to the present of how historically disenfranchised communities activist organizations and repressive state institutions battle over the uses of digital technology and media making practices as civil liberties community autonomy and the very lives of people and other than human animals hang in the balance

Justice for People on the Move Gillian Brock, 2020-02-20 Offers a comprehensive framework that can assist in responding to new justice challenges for people on the move

Avoiding The Terrorist Trap: Why Respect For Human Rights Is The Key To Defeating Terrorism Thomas David Parker, 2019-06-17 This book makes uncomfortable reading both in its detailed analysis of terrorism and its causes and in the critique of state responses particularly in modern times It is unusual to have such a defence of a human rights framework from a counter terrorism practitioner rather than from within the legal fraternity It is this that makes the case even more persuasive All who are involved in counter terrorism strategy should consider carefully the arguments put forward *Global Policy Journal* For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary sources *Avoiding the Terrorist Trap* addresses common misconceptions underpinning flawed counter terrorist policies identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule of law is the most effective approach to defeating terrorism
