The New Domestic Automakers in the United States and Canada A.J. Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign

motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide

The Complex Nick Turse, 2008-03-18 A stunning breakdown of the modern military industrial complex an omnipresent hidden in plain sight system of systems that penetrates all our lives From iPods to Starbucks to Oakley sunglasses national security expert Nick Turse explores the Pentagon's little noticed contacts and contracts with the products and companies that now form the fabric of America He investigates the remarkable range of military incursions into the civilian world the Pentagon's collaborations with Hollywood filmmakers its outlandish schemes to weaponize the wild kingdom its joint ventures with Marvel Comics and NASCAR and he spotlights the disturbing way in which the military desperate for fresh recruits has tapped into the online world by friending young people on social networks A striking vision of a brave new world of remote controlled rats and super soldiers who need no sleep The Complex will change our understanding of the militarization of America We are a long way from Eisenhower's military industrial complex this is the essential book for understanding its twenty first century progeny With a combination of wit and number crunching Turse gives a multidimensional picture of the biggest elephant in every room the Pentagon Foreign Policy in Focus A brilliant exposé of the Pentagon's pervasive influence in our lives Chalmers Johnson author of the Blowback Trilogy A deeply disturbing audit of the Pentagon's influence on American life If Nick Turse is right The Matrix may be just around the corner Mike Davis author of Bunk and Bad Religion A Brief History of the Car Bomb

High Voltage Jim Motavalli, 2011-11-08 A behind the scenes look at the robustly competitive race to dominate the market for electric cars the larger than life moguls behind them and the changes that are transforming the auto industry In the 1980s it was unimaginable that the home computer would become as common and easy to use as a toaster Today plug in charging stations and smart grids seem like something still far off in the future But by 2020 the auto industry will look very different from today's field of troubled auto giants The combination of technological breakthroughs and charging networks driven by global warming and peak oil makes it clear that revolutionary change in the auto industry is happening right now In *High Voltage* Jim Motavalli captures this period of unprecedented change documenting the evolution from internal combustion engines to electric power Driven by the auto world's ambitious and sometimes outlandish personalities the book chronicles the race to dominate the market focusing on big players like Tesla and Fisker as well as a tiny start up and a battery supplier Flashing forward to the changes we'll see in the coming years *High Voltage* shows a not so distant future where we will live on a smart grid our cars fueling that is charging while we shop or sleep The ramifications of these changes will be on a grander scale than most of us ever imagined altering foreign policy reducing trade deficits and perhaps even ending global warming
