Tracking The Vanishing Frogs An Ecological Mystery:

Tracking the Vanishing Frogs Kathryn Phillips,1994 In her novel like ecological study Phillips details scientists efforts in wetlands woodlands rain forests and laboratories to understand why so many species of frogs are vanishing She clearly describes the environmental and human factors that threaten these underappreciated creatures and draws a fascinating real world picture of how science and scientists work Photos **Tracking the vanishing frogs** Kathryn Phillips,1994 In Search of the Golden Frog Martha L. Crump,2000-06-21 A chronicle of Crump s three decades as a field biologist and as a wife and mother in South and Central America Jacket *The Golden Toad* Trevor Ritland,Kyle Ritland,2025-06-17 The Costa Rican cloud forest a mysterious amphibian killer and a vanished species with support from Leonardo DiCaprio s Re wild campaign twin documentarians and environmental writers follow their father s footsteps into the heart of the modern extinction crisis As young boys Trevor and Kyle Ritland were fascinated by the magnificent golden toad of Costa Rica a brilliant species their biologist father showed them in his projector s slide shows Native to only one wind battered ridgeline high on the continental divide above the cloud forests of Monteverde thousands of golden toads would congregate for a few weeks each year in ephemeral pools among the twisted roots to mate deposit their offspring and retreat again beneath the earth But from one year to the next the toads disappeared without a trace the last of them vanished more than thirty years ago Since then only rumors remain alleged sightings by local residents which beg the question could the golden toad still be alive In *The Golden Toad* Trevor and Kyle set off to investigate an environmental mystery with unexpected revelations a story that speaks to our own collective and uncertain future Guided by Costa Rican naturalists including the last person to have seen the golden toad alive Trevor searches for survivors while Kyle hunts the killer and their paths lead them through an imperiled forest a deadly pandemic and a changing climate finally intertwining at the site of the golden toad s last emergence deep in Monteverde s Bosque Eterno de Los Niños The toad s demise becomes a haunting foretelling of approaching ecological crisis but with a gold lining on the horizon *The Golden Toad* changes the conversation around extinction climate change and conservation while exploring environmental grief resurrection and hope in a changing world **An Environmental History of the World** Johnson Donald Hughes,2001 This original work follows a chronological path through the history of mankind in relationship to ecosystems around the world Each chapter concentrates on a general period in human history each also has three case studies which illustrate the significant patterns occurring at that time

Amphibian Ecology and Conservation C. Kenneth Dodd,2010 Describes the latest methodologies used to study the ecology of amphibians throughout the world Each of the 27 chapters explains a research approach or technique with emphasis on careful planning and the potential biases of techniques Statistical modelling landscape ecology and disease are covered for the first time in a techniques handbook *Tales of an Ecotourist* Mike Gunter Jr.,2017-11-21 Crossing the far corners of the globe *Tales of an Ecotourist* showcases travel from the hot and humid Amazon jungle to the frozen but dry

Antarctic as a simple yet spellbinding lens to better understand the complex issue of climate change At its core climate change is an issue few truly understand in large part due to its dizzying array of scientific economic cultural social and political variables Using both keen humor and memorable anecdotes while weaving respected scientific studies along the way Mike Gunter Jr transports the reader to five famous ecodestinations from the Galapagos Islands to the Great Barrier Reef revealing firsthand the increasing threats of climate change Part travelogue part current events expos with a healthy dose of history ecology and politics these tales of ecoadventure tackle such obstacles head on while fleshing out much needed personal context to perhaps society s greatest threat of all **The Face of the Earth** J. Donald Hughes,2015-05-11

Although the organizing principle of virtually every world history text is development the editor of this volume maintains that this traditional approach fails to address the issue of sustainability By adopting the ecological process as their major theme the authors show how the process of human interaction with the natural environment unfolded in the past and offer perspective on the ecological crises in our world at the beginning of the 21st century Topics range from broad regional studies that examine important aspects of the global environment that affect nations to a study of the widespread influence of one important individual on his nation and beyond The authors take different approaches but all share the conviction that world history must take ecological process seriously and they all recognize the ways in which the living and non living systems of the earth have influenced the course of human affairs **The Reporter's Handbook** Steve Weinberg,1996

Reporters editors and journalists will find this third edition of The Reporter s Handbook an even more impressive resource than prior editions This essential tool for serious journalists identifies hundreds of documents and human sources in both private and government sectors It provides step by step methods for tracking paper trails people trails and computer trails The book also includes coverage of library research computer assisted reporting case studies anecdotes and IRE contest winning pieces This new edition features chapters on the environment transportation housing financial institutions international investigation utilities and non profit organizations Under the sponsorship of Investigative Reporters and Editors Inc Steven Weinberg has revised and polished this journalism classic into a must have reference guide for the classroom and the newsroom *The Globalization of Environmental Crisis* Jan Oosthoek,Barry K. Gills,2013-10-31 Previously published as a special issue of Globalizations this collection of essays addresses what is arguably the most pressing and urgent issue of our day the continuing development of global environmental crises and the need for new and urgent responses to them by the world community The contributors include social scientists environmental historians anthropologists and science policy researchers and together they give an overview of the history of the globalization of environmental crisis over the past several decades both in terms of the science of measurement and the types of policy and public responses that have emerged to date The specific issue areas addressed in the book cover a wide range of topics including international environmental governance North South inequalities climate change global warming tropical forests air pollution economic and paradigm

shifts sustainability indigenous peoples and eco conservation EU environmental policy the United States and politicized climate science and more The Globalization of Environmental Crisis will be of particular interest to all those concerned with the on going debate over the state of the global environment and what to do about it Hop Into Action David Alexander,2010 The standards based lessons in this slim volume serve as an introduction to environmental science for young learners Hop Into Action helps teach children about the joy of amphibians through investigations that involve scientific inquiry and knowledge building Twenty hands on learning lessons can be used individually or as a yearlong curriculum Each lesson is accompanied by detailed objectives materials lists background information step by step procedures evaluation questions assessment methods and additional web resources The activities can be integrated into other disciplines such as language arts physical education art and math and are adaptable to informal learning environments from publisher description Behavioral Ecology and Conservation Biology Timothy M. Caro,1998-08-27 Behavioural ecologists study how animals maximize their genetic representation whilst conservation biologists study small populations attempt to prevent species extinctions This volume attempts to link these disciplines formally Extinction in Our Times James P. Collins,Martha L. Crump,Thomas E. Lovejoy III,2009-07-07 For over 350 million years thousands of species of amphibians have lived on earth but since the 1990s they have been disappearing at an alarming rate in many cases quite suddenly and mysteriously What is causing these extinctions What role do human actions play in them What do they tell us about the overall state of biodiversity on the planet In Extinction in Our Times James Collins and Martha Crump explore these pressing questions and many others as they document the first modern extinction event across an entire vertebrate class **Okoboji Wetlands** Michael J. Lannoo,1996-05-01 Lake Okoboji in northwest Iowa is the jewel of the Iowa Great Lakes A region of wetlands formed by prairie potholes the area is rich with lakes sloughs fens creeks prairies and kettleholes In this readable and beautifully illustrated volume Michael Lannoo presents an extensive natural history of Okoboji and its cherished wetlands that examines that world of our grandparents compares it to today s world and extrapolates to the world of our grandchildren Frogs David P. Badger,1995 Showcases a select group of over fifty frogs and toads chosen for their unusual markings calls poisons or behavior and includes frogs and toads from North and South America Africa Australia Europe and Asia **The Amphibians and Reptiles of Alberta** Anthony Patrick Russell,Aaron M. Bauer,Wayne Lynch,Irene McKinnon,2000 Amphibians and reptiles herpetofauna are a significant but much neglected component of the natural economy of the province of Alberta The Amphibians and Reptiles of Alberta Second Edition continues both as a field guide and a comprehensive natural history builds on the strengths of the first with a richly illustrated text and colour photographs of the species taken by renowned wildlife photographer Wayne Lynch The Amphibians and Reptiles of Alberta First Edition won an Emerald Award for Environmental Excellence and an award from the Book Publishers Association of Alberta This second edition has been thoroughly revised and updated Nomenclature has been changed to reflect current thinking in the

field New photographs have been added and maps and illustrations have been updated This is the essential reference for Alberta herpetofauna

Understanding Deviance Tammy L. Anderson, 2014-01-23 In this collection of 48 reprinted and completely original articles Tammy Anderson gives her fellow instructors of undergraduate deviance a refreshing way to energize and revitalize their courses 36 are reprints 12 are original to this text anthology First in 12 separate sections she presents a wide range of deviant behaviors traits and conditions including underage drinking and drunk driving doping in elite sports gang behavior community crime juvenile delinquency hate crime prison violence and transgendered prisoners mental illness drug using women and domestic violence obesity tattooing sexual fetishes prostitution drug epidemics viral pandemics crime control strategies and racial inequality gay neighborhoods HIV and bugchasers and lastly youth multicultural identity and music scenes Second her pairing of classic and contemporary viewpoints about deviance and social control not only connects important literatures of the past to today's student readers her connections framework also helps all of us see social life and social processes more clearly when alternative meanings are accorded to similar forms of deviant behavior We also learn how to appreciate and interact with those who see things differently from ourselves This may better equip us to reach common goals in an increasingly diverse and ever changing world Third a major teaching goal of Anderson's anthology is to sharpen students' critical thinking skills by forcing them to look at how a deviant behavior trait or condition can be viewed from opposing or alternative perspectives By learning to see deviance from multiple perspectives students will better understand their own and others' behavior and experiences and be able to anticipate future trends Balancing multiple perspectives may also assist students in their practical work in social service criminal justice and other agencies and institutions that deal with populations considered deviant in one way or another

Building the Next Ark Michael M. Gunter, 2004 A timely study of how NGOs are uniquely positioned to help prevent the greatest environmental crisis of all

AI Magazine, 1995 *Divided Planet* Tom Athanasiou, 1998 Global warming Soil loss Freshwater scarcity Extinction Overconsumption Toxic waste production Habitat and biodiversity erosion These are only a few of our most urgent ecological crises There are others as well and despite the popularity of good news environmentalism few of them are going away In this wide ranging grimly entertaining commentary on the environmental debate Tom Athanasiou finds that these problems are exacerbated if not caused by the planet's division into warring camps of rich and poor Writing with passionate intelligence Athanasiou proposes a simple yet radical solution stop indulging easy calming fantasies in which everything seems to change but nothing important changes at all Instead do what needs to be done now while there is still time and goodwill The bottom line he concludes is that there will be no sustainability without a large measure of justice Without profound political and economic change he argues there can be no effective global environmental action no real effort to save the planet
