Introduction

T. S. Eliot's 1919 critical essay "Tradition and the Individual Talent" was first published in the London literary magazine *The Egoist*. It was republished a year later, alongside nineteen of Eliot's other essays, in the 1920 collection *The Sacred Wood*. Though "Tradition and the Individual Talent" was composed early in Eliot's career, it remains one of his best-known and most influential essays, having contributed heavily to the founding of the New Criticism movement. New Criticism practices close reading and emphasizes the aesthetic and stylistic elements of poetry rather than the ideological or biographical ones. In "Tradition and the Individual Talent," Eliot advocates for the separation of art from artist and argues that tradition has less to do with imitation and more to do with understanding and expanding upon the intellectual and literary context in which one is writing. The essay is divided into three sections, with the first section outlining Eliot's definition of tradition, the second expanding upon the relationship between poetry and the poet, and the third offering a brief conclusion.

Summary

In part 1, Eliot articulates his concept of literary tradition. He argues that often what marks great poetry is the degree to which it is in conversation with the poetry of the past. In his view, to be "traditional" is not to lack originality, but rather to possess an awareness of the "whole of the literature

Hollis Frampton Michael Zryd, 2023-05-09 Hollis Frampton was an American filmmaker, photographer and theorist who bridged the experimental film and contemporary art worlds in the 1960s and 1970s. Best known for avant-garde films including *Zorns Lemma* 1970 and *nostalgia* 1971, Frampton spent his later years working on the unfinished epic *Magellan*, a monumental cycle that used the metaphor of Ferdinand Magellan's circumnavigation of the world to rethink the natures and meanings of history, modernity and cinema. Frampton's career was cut short by cancer at age 48, with his vast ambitions for the project left incomplete. This book is a groundbreaking and comprehensive account of this remarkable figure's work in its totality, from Frampton's earliest films through *Magellan*. Michael Zryd explores the connections linking Frampton's art and thought to other media forms, histories and cultural frameworks. He foregrounds Frampton's notion of the infinite cinema, which redefined the parameters of the medium to encompass all forms of moving image and sound media across the past and future of cinematic possibility. Zryd analyzes Frampton's ambivalent relationship with modernism and the Enlightenment, showing how the artist navigated between attraction to radical artistic investigation and awareness of this tradition's implication in colonialism and other oppressive power structures. Shedding new light on Frampton's project of exploring and critiquing how cinema attempts to capture and understand the world, this book also considers his significance for contemporary art.

The Autonomy of Literature R. Lansdown, 2001-01-31 In the aftermath of the theory wars, the imaginative, formal and moral features of literature have been substantially marginalized, downgraded and neglected. Yet for many readers, such elements will always be central to the experience of reading, just as for writers they are central to the experience of writing. This provocative study argues that literature has an abundant life of its own and
