Transformation Design Perspectives Attitude International:

Design & Democracy Maziar Rezai, Michael Erlhoff, 2021-04-19 Design affects all social contexts and is therefore intensively instrumentalized both by the politically powerful and their critics Both functions of design and their inevitable combination are presented in this book in precise detail Authors from various countries present previously unknown and innovative examples of democratic activities conducted through design This publication is therefore aimed not only at design professionals but also at the general public of all countries

Design (&) Activism

Tom Bieling, 2019-12-05T00:00:00+01:00 This is a book about how the worlds of design and activism could inspire each other As Design and its conceptual functional aesthetic speculative and interventional concepts inevitably affect our lives it often actively interferes in common definitions understandings and opinion making which offers opportunities for ideological engagement in a good or in a bad sense The book focuses on theories and practices related to the role of Design in terms of addressing provoking and creating political discourse Starting from traditional forms of protest visual languages of resistance to new forms of digital participation this will help us to better understand the rituals structures and meanings of design activism in history and the present clarifying that design is intrinsically social and supremely political And it shall help us to derive arguments and examples for the transformative potential of future design and activism

Basics Climate-Smart

Design and Construction Bert Bielefeld, 2024-06-04 The construction sector currently accounts for a high proportion of CO2 emissions and gray energy use This will have to change fundamentally if we are to prevent catastrophic climate change and make urban planning and construction fit for the future In addition to a paradigm shift in how architects work we need to rethink how they are trained in higher education Based on a lifecycle approach and an awareness of resource consumption this volume in the Basics series explains a wide range of climate friendly concepts in an easy to understand way inspiring readers to take a closer look at solutions and new approaches in their daily practice The key factors involved in the various planning stages of buildings are presented and placed in the context of the overall planning Explains a range of current sustainability concepts Foundational knowledge for all students of architecture Interdisciplinary and networked consideration of challenges and solutions in the area of climate protection

NERD - New Experimental Research in

Design Michael Erlhoff, Wolfgang Jonas, 2018-11-05 Design has long expressed and established itself as an independent research competence a fact that also companies institutions and politicians have come to acknowledge What is still needed however is a stronger public platform for design to confidently reflect upon this process and to establish and communicate the specific innovative and experimental dimension of design research For this reason BIRD the Board of International Research in Design has developed the New Experimental Research in Design NERD format The edited conference contributions of twelve young researchers from all over the world provide an impressive and diverse and insightful range of intelligent and inspiring approaches in design research giving rise to further debate and action in the rapidly evolving field

Empathy in Clinical Psychiatry and Mental Health Care, 2025-10-07 Empathy in Clinical Psychiatry and Mental Health Care focuses on empathy in clinical psychiatry and mental health care bringing together the challenging reality of day to day clinical mental health work with conceptual and neuroscientific work on empathy Such an interface is crucial because empathy is both ethically and epistemically central to mental health care Mental health professionals effort of trying to understand the distressing experiences of patients will help instil a sense of dignity and respect for their suffering Empathy is also epistemically central to psychiatry because the knowledge gained through the empathy effort helps to inform the collaborative care plan to be developed with the patient The book s first section sets the conceptual epistemological and social neuroscience scene including and acknowledging empathy s potential risks and problems Its second section addresses empathy s role in medicine descriptive psychopathology psychological interventions as well as the neurobiological basis of its disorders The third section examines empathy in clinical situations such as psychosis suicidal behaviour personality disorders alcohol or substance use disorders forensic psychiatry and the care of autistic people Its final section describes the role of empathy in the work of mental health nurses occupational therapists clinical psychiatrists and mental health law lawyers with a final chapter covering empathy in mental health care interventions provided by conversational artificial intelligence The book closes with a call to place clinical empathy at the centre of mental health care provision and research to increase effectiveness outcomes and patient experience

Design Education Across Disciplines Miikka J. Lehtonen, Tomi Kauppinen, Laura Sivula, 2023-03-31 This book explores how design thinking can transform higher education with solutions ranging from single course sessions to whole programs and universities The authors demonstrate how designing across disciplines is done with disruptive technologies ambiguity and challenges as catalysts Iteratively tested pedagogies design driven solutions and creative uses of both tactile and digital worlds are among the approaches discussed Educators and leaders of higher education institutes as well as designers and managers of companies will benefit from engaging the design ideas in their own work

Design For More-Than-Human Futures Martín Tironi, Marcos Chilet, Carola Ureta Marín, Pablo Hermansen, 2023-09-18 This book explores the work of important authors in the search for a transition towards more ethical design focused on more than human coexistence In a time of environmental crises in which the human species threatens its own survival and the highest level of exacerbation of the idea of a future and technological innovation it is important to discard certain anthropocentric categories in order to situate design beyond the role that it traditionally held in the capitalist world creating opportunities to create more just and sustainable worlds This book is an invitation to travel new paths for design framed by ethics of more than human coexistence that breaks with the unsustainability installed in the designs that outfit our lives Questioning the notion of human centered design is central to this discussion It is not only a theoretical and methodological concern but an ethical need to critically rethink the modern colonialist and anthropocentric inheritance that resonates in design culture The authors in this book explore the ideas oriented to form new relations with the more than

human and with the planet using design as a form of political enquiry This book will be of interest to academics and students from the world of design and particularly those involved in emerging branches of the field such as speculative design critical design non anthropocentric design and design for transition

The Imperial Mode of Living Ulrich Brand,Markus Wissen,2021-01-26 Our Unsustainable Life Why We Can t Have Everything We Want With the concept of the Imperial Mode of Living Brand and Wissen highlight the fact that capitalism implies uneven development as well as a constant and accelerating universalisation of a Western mode of production and living The logic of liberal markets since the 19th Century and especially since World War II has been inscribed into everyday practices that are usually unconsciously reproduced The authors show that they are a main driver of the ecological crisis and economic and political instability The Imperial Mode of Living implies that people s everyday practices including individual and societal orientations as well as identities rely heavily on the unlimited appropriation of resources a disproportionate claim on global and local ecosystems and sinks and cheap labour from elsewhere This availability of commodities is largely organised through the world market backed by military force and or the asymmetric relations of forces as they have been inscribed in international institutions Moreover the Imperial Mode of Living implies asymmetrical social relations along class gender and race within the respective countries Here too it is driven by the capitalist accumulation imperative growth oriented state policies and status consumption The concrete production conditions of commodities are rendered invisible in the places where the commodities are consumed The imperialist world order is normalized through the mode of production and living

Systemic Design Peter Jones,Kyoichi Kijima,2019-01-23 This book presents emerging work in the co evolving fields of design led systemics referred to as systemic design to distinguish it from the engineering and hard science epistemologies of system design or systems engineering There are significant societal forces and organizational demands impelling the requirement for better means of change through integrated design practices of systems and services Here we call on advanced design to lead programs of strategic scale and higher complexity e g social policy healthcare education urbanization while adapting systems thinking methods creatively pushing the boundaries beyond the popular modes of systems dynamics and soft systems Systemic design is distinguished by its scale social complexity and integration it is concerned with higher order systems that that entail multiple subsystems By integrating systems thinking and its methods systemic design brings human centred design to complex multi stakeholder service systems As designers engage with ever more complex problem areas it is necessary to draw on a basis other than individual creativity and contemporary design thinking methods Systems theories can co evolve with a new school of design theory to resolve informed action on today s highly resilient complex problems and can deal effectively with demanding contested and high stakes challenges

Digital Future Workshops Ludwig Weh,2025-06 Digital future workshops are exploring new forms of use audiences and field of application for the classical moderation method in digital space Using the case of student led sustainability transformation in higher education structures this book describes in detail the development

application and reflection of a complex multi week form of digital future workshops The authors reinterpret their historical backgrounds theoretical premises and practical design aspects while offering inspiration for interested practitioners and developers
