Transitional Justice And Peacebuilding On The Ground Victims And Ex Combatants:

Transitional Justice and Peacebuilding on the Ground Chandra Lekha Sriram, 2013 This book seeks to refine our understanding of transitional justice and peacebuilding and long term security and reintegration challenges after violent conflicts As recent events following political change during the so called Arab Spring demonstrate demands for accountability often follow or attend conflict and political transition While traditionally much literature and many practitioners highlighted tensions between peacebuilding and justice recent research and practice demonstrates a turn away from the supposed peace vs justice dilemma This volume examines the complex relationship between peacebuilding and transitional justice through the lenses of the increased emphasis on victim centred approaches to justice and the widespread practices of disarmament demobilization and reintegration DDR of excombatants While recent volumes have sought to address either DDR or victim centred approaches to justice none has sought to make connections between the two much less to place them in the larger context of the increasing linkages between transitional justice and peacebuilding This book will be of great interest to students of transitional justice peacebuilding human rights war and conflict studies security studies and IR

Transitional Justice in Peacebuilding Djeyhoun Ostowar, 2020-11-22 This book explores the role of actors in determining transitional justice in peacebuilding contexts In recent decades transitional justice mechanisms and processes have been introduced to a variety of settings becoming widely regarded as essential elements in the peacebuilding toolbox While it has increasingly been suggested that transitional justice is imposed by neo imperial actors with little regard for the needs and cultures of local populations evidence suggests that dismissing these policies as neo imperial or neo liberal impositions would result in grossly overlooking their dynamics which involve a whole range of relevant actors operating at multiple levels This book interrogates this theme through empirical analysis of three sites of peacebuilding that have seen extensive international involvement Kosovo East Timor and Afghanistan It proposes a novel framework for analysing and approaching transitional justice in peacebuilding that disaggregates three broad sets of actors operating at different levels in relevant processes external actors international and regional levels transitional justice promoters local national international and transnational levels and transitional regimes national and local levels The book argues that transitional justice in peacebuilding must be conceived of as actor contingent and malleable due to the significance of agency and inter actions of key categories of actors throughout peacebuilding transition This book will be of interest to students and practitioners of transitional justice peacebuilding law and International Relations

Transitional Justice Michael Newman, 2019-07-02 What should be done after the end of a repressive regime or a civil war How can bitter divisions be resolved in a way that combines reconciliation with accountability In this book Michael Newman accessibly introduces these debates outlining the key ideas and giving an overview of the vast literature by reference to case studies in such places as South Africa Cambodia and Sierra Leone While recognising that every situation is different he argues that it is vital to contend fully with the past and

address the fundamental causes of mass human rights abuses A readable overview for those coming to the subject of transitional justice for the first time and food for thought for those already familiar with it this book is invaluable in areas ranging from politics and international relations to peace and conflict studies law human rights and philosophy **Victims of International Crimes: An Interdisciplinary Discourse** Thorsten Bonacker, Christoph Safferling, 2013-07-09 In international law victims issues have gained more and more attention over the last decades In particular in transitional justice processes the victim is being given high priority It is to be seen in this context that the Rome Statute for the International Criminal Court foresees a rather excessive victim participation concept in criminal prosecution In this volume issue is taken at first with the definition of victims and secondly with the role of the victim as a witness and as a participant Several chapters address this matter with a view to the International Criminal Court ICC the Extraordinary Chambers in the Courts of Cambodia ECCC and the Trial against Demjanjuk in Germany In a third part the interests of the victims outside the criminal trial are being discussed In the final part the role of civil society actors are being tackled This volume thus gives an overview of the role of victims in transitional justice processes from an interdisciplinary angle combining academic research and practical experience **Netherlands Yearbook of International Law 2022** Otto Spijkers, Julie Fraser, Emmanuel Giakoumakis, 2025-04-04 This book on international law explores the ways in which traditional forms of reparation restitution compensation and satisfaction have been re interpreted since the rendering of the landmark Factory at Chorzów judgment in 1928 of the Permanent Court of International Justice It examines how the concept of reparations has developed in international law and evolved to reflect broader community values like human rights as well as criminal and transitional justice Contributions to this year's volume of the Netherlands Yearbook of International Law examine the ways in which reparation has been understood in the jurisprudence of various courts and jurisdictions including the International Court of Justice the International Criminal Court and the UN human rights treaty body system Several regional or internationalised bodies are also examined including the Inter American and European Courts of Human Rights and the Extraordinary Chambers in the Courts of Cambodia The volume includes chapters focusing on recent efforts to repair historical wrongs such as reparations for colonial times dictatorial oppression and failed peacekeeping missions and the ways in which the legal principle of reparation has been conceptualised in support of these claims The book illustrates the shift of reparations from a largely state centric approach concerned with financial compensation to a more victim centred one that encompasses a diverse range of reparative measures Despite this positive shift multiple complex obstacles remain in the way of victims realising their right to reparation including limited financial resources ineffective victim consultation long delays and the absence of political will The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic area of public international law Chapter 13 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com [New Critical Spaces in](#)

Transitional Justice Arnaud Kurze, Christopher K. Lamont, 2019-01-10 Since the 1980s transitional justice mechanisms have been increasingly applied to account for mass atrocities and grave human rights violations throughout the world. Over time, post conflict justice practices have expanded across continents and state borders and have fueled the creation of new ideas that go beyond traditional notions of amnesty, retribution and reconciliation. Gathering work from contributors in international law, political science, sociology and history, **New Critical Spaces in Transitional Justice** addresses issues of space and time in transitional justice studies. It explains new trends in responses to post conflict and post authoritarian nations and offers original empirical research to help define the field for the future.

The Routledge Handbook of International Crime and Justice Studies Bruce Arrigo, Heather Bersot, 2013-08-15 This book presents the enduring debates and emerging challenges in crime and justice studies from an international and multi disciplinary perspective.

Justice Framed Marcos Zunino, 2019-03-14 Why are certain responses to past human rights violations considered instances of transitional justice while others are disregarded? This study interrogates the history of the discourse and practice of the field to answer that question. Zunino argues that a number of characteristics inherited as transitional justice emerged as a discourse in the 1980s and 1990s have shaped which practices of the present and the past are now regarded as valid responses to past human rights violations. He traces these influential characteristics from Argentina's transition to democracy in 1983, the end of communism in Eastern Europe, the development of international criminal justice and the South African truth commission of 1995. Through an analysis of the post World War II period, the decolonisation process and the Cold War, Zunino identifies a series of episodes and mechanisms omitted from the history of transitional justice because they did not conform to its accepted characteristics.

Oxford Handbook of Transitional Justice, 2025-08-15 The Oxford Handbook of Transitional Justice is an authoritative guide to the rapidly growing domain of transitional justice: the practices and processes of reckoning pursued in the aftermath of historic injustice. Since the neologism's coining in the late 1990s, transitional justice has become one of the 21st century's most influential practices of international humanitarianism. However, transitional justice projects often conceal the very violence they are intended to address or even inflict further violence on victims of atrocities. Across 48 genre bending chapters, the Handbook explores, articulates and advances a multifaceted critique of transitional justice. Ranging innovatively across space and time, it interrogates the nature and legacies of the justice cascade that the prosecution of international crimes is said to have inspired. An interdisciplinary cast of leading scholars questions the meaning and efficacy of transitional justice's modalities which range from archives to courts, from memorials to reparations. In so doing, this volume's authors critically challenge the panglossian orthodoxies that have accumulated and ossified around efforts to come to terms with violent pasts, from colonialism to genocide. This global endeavor is not one of tear down, however. Rather, it points toward a reimagined project that is more clear eyed about the promises of transitional justice and its inherent limits. A definitive work on the subject, **The Oxford Handbook of Transitional Justice** is essential reading for students, scholars and practitioners.
