Creative Radicalism in the Middle East Caroline Rooney,2020-06-11 Addressing the question of how neoliberal ideology has served to conflate the radical left with extremism this book examines how the Arab left has asserted itself in the context of authoritarianism and Islamic extremism during and after the Arab uprisings It examines how the Arab cultural left has offered a critique of the signifying practices of political hegemonies in the region and argues that though creative expression as constituted in the very language of the Arab uprisings it has put forward its own alternatives Using a wide array of texts and sources both Arab and non Arab the opening chapters of the book identify how ethical and radical values

pertaining to sociality are co-opted by political leaders in the Middle East and turned into jargon. Later chapters outline resistance to this co-option through a poetics of inter-subjectivity that takes structures of feeling into account ranging from disappointment, despair, and distrust to dignity, solidarity, and reconfigured senses of the sacred. In showing how psychological and affective states relate to signifying practices, the book offers an original conceptual framework for differentiating radicalization from the creative radicalism of the Arab avant-garde.
