An international range of contributors, each a specialist in their chosen field, have written papers for this book to explain many of the complex issues affecting tourists, the tourism industry, and governments in ensuring tourism is viewed as a safe and enjoyable experience for all. The contributors have a wealth of interdisciplinary experience ranging from medicine, law, tourism research, safety science, ergonomics, management consultancy, among other cognate areas of study. Future research directions are examined in many of the chapters together with current state-of-the-art knowledge in relation to key studies. The book extends this understanding through a multidisciplinary perspective combining some of the leading researchers who have published in this area since the emergence of tourist health as a legitimate area of study in the 1970s.
