Traveller From Tokyo Kegan Paul Japan Library:

Traveller From Tokyo John Morris, 2013-12-16 Written in the author's typically charming and self-effacing style this book offers readers a fascinating insight into Japan and Japanese life at the eve of its fateful entry into the Second World War. The author tells of his struggle to teach English in a Japanese university as well as his daily encounters with Japanese institutions and customs. Never dry or pedantic the work is a balanced and intriguing portrait of political and social life in 1940s Japan.

Traveller from Tokyo Morris, 2016-01-31 First Published in 2005 Routledge is an imprint of Taylor Francis an informal company. *Japanese Nation* Nitobé Inazo, 2013-01-11 This is an important document in the history of Japanese American relations. In 2002 President Bush spoke of the great Japanese scholar and statesman Inazo Nitobe who envisioned a future of friendship between the two nations. This book is one of the means by which Nitobe sought to bridge the Pacific. Writing before World War I he presents a detailed account of Japan and the Japanese in terms easily understandable to western readers, emphasising points of similarity rather than difference, often citing the work of western historians and philosophers in order to explain Japanese practices, always searching for common aims and goals. He deals with the effect of the past on the present, national characteristics, religious beliefs, morals and moral ideals, education, economic conditions, Japan as coloniser, relations between the United States and Japan and America's influence in the Far East, concluding with the hope that wherever else war may break out, lasting peace would reign over the Pacific. In this he was disappointed but the fact that Nitobe is cited today as the architect of Japanese American friendship makes this volume essential reading for the historian. **Art Of**

Japanese Gardens Loraine E. Kuck, 2013-08-06 The flowering of Far Eastern culture and philosophy as seen through the remarkable gardens they gave rise to. This classic work was one of the first to reveal the full meaning and symbolism of the gardens of China and Japan and to treat them as serious works of art and material culture rather than as quaint and pretty plantings. In spirit the art of these gardens is akin to landscape painting; in form it is close to sculpture. Yet it is really quite different, a unique art based upon the choice and arrangement of natural materials in the creation of a scene that has the power to transform and inspire the viewer and gardener. Loraine E. Kuck begins her study with the naturalistic gardens of early China, progressing on to the gardens of Japan. She relates the development of gardens to the personalities who made them, to the historical background, to Eastern religion and philosophy, to the political events which shaped the culture of each period, to the arts in general and to painting, architecture and the tea ceremony in particular. Above all, her account brings alive a world in which mosses hold the warm promise of spring and hope in their velvet depths, in which the juxtaposition of pools and rocks invite meditation, where sunny slopes convey the calm of centuries and in which flowering cherry trees are viewed by moonlight with tall lanterns throwing soft light on masses of flowers seen against the starry darkness of the sky. The work includes chapters on Heian gardens, the gardens of the Fujiwara period, the princely gardens of Tokugawa times and Zen landscapes, along with sixty-four pages of illustrations including many rare photographs. Practical and inspirational.

no other work so perfectly captures the spirituality beauty and complex simplicity of these gardens that link heaven and earth

The English-language Press Networks of East Asia, 1918-1945 Peter O'Connor,2010-09-01 This study is the first to assess the combined significance of the English language newspapers of China Japan and Korea in the period 1918 45 It not only frames the English language press networks in the international media history of East Asia but also relates them to media developments in the British world linking Fleet Street to the Empire and Dominions and to the rise of the United States as a broker of international opinion on and in the Asia Pacific The English language newspapers occupied a narrow but significant segment of the public sphere in East Asia in the inter war years As forums of opinion on Japanese Chinese and Western interests in East Asia they also served as vehicles of propaganda particularly during the crisis ridden 1930s and the Pacific War With this examination of the media affiliations editorial line and access to official bodies in East Asia and the West of most of the English language newspapers published in East Asia in the period under review the author demonstrates that these publications formed distinct networks in terms of the editorial positions they took vis a vis the key issues of the day especially Japan s imperial project in East Asia
