Implementing Communities of Practice in Higher Education Jacquie McDonald,Aileen Cater-Steel,2016-11-23 In this edited collection the authors pick up the communities of practice CoP approach of sharing practice in their reflection on the experience of taking their CoP vision from a dream to reality Their stories articulate the vision the passion and the challenge of working within and or changing existing institutional culture and practice The book discusses strategies that worked and considers the lessons learnt to inspire future dreamers and schemers The multiple perspectives provided in the case studies will assist higher education leaders as well as academic and professional staff in establishing or assessing CoPs The book offers insights into implementation strategies practical guidelines and ideas on how CoP theoretical underpinnings can be tailored to the higher education context **Mobile Learning in Higher Education in the Asia-Pacific Region** Angela Murphy,Helen Farley,Laurel Evelyn Dyson,Hazel Jones,2017-07-06 If mobile technologies are to be effectively used in education how do we best implement sustainable mobile solutions for teaching and learning The aim of this handbook is to support educators and policy makers who are investing in innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments Authors from sixteen countries across the Asia Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives These projects focus on a variety of aspects of mobile learning innovation from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems to the large scale interuniversity implementation of technologies and pedagogies to support mobile learning Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system encompassing the student perspective the educator perspective technical processes policies and organisational strategy and leadership The book also offers a unique perspective on the integration of mobile learning innovations within the educational political and cultural environments of Asia Pacific countries **Kaapse bibliotekaris** ,2014 Issues for Nov 1957 include section Accessions Aanwinste Sept 1957 **Towards concurrent planning of railway maintenance and train services** Tomas Lidén,2016-09-05 Efficiency in the public and freight transportation systems is of crucial importance for a society Railways can offer high capacity and relatively low environmental impact but require that several technical systems are tuned and operate well Specifically there is a very tight interdependency between infrastructure and trains which distinguishes railways from other transportation modes Thus maintenance of all the subsystems is needed Railways do also have some specific and complicating properties that influence maintenance and operations Most activities need exclusive access to the infrastructure and due to the geographic layout safety requirements and partitioning of the subsystems large portions of the network will be affected by each activity Furthermore several organisational units and resources are involved ranging from governments and regulatory bodies over operators and contractors to suppliers technical experts and work forces Thus railway maintenance is

complicated to organize and consumes large budgets This thesis treats the planning and scheduling problems that concern railway infrastructure maintenance and the coordination with train traffic Mathematical methods and optimization are studied and used with the aim of advancing the knowledge about models for solving such problems The thesis contains three papers and presents 1 A survey regarding railway maintenance activities the major planning problems and the conducted research so far 2 A model for quantitative comparison and assessment of competing capacity requests from train operations and maintenance 3 An optimization model for integrated scheduling of both maintenance windows and train services The work can be helpful for practitioners as well as researchers who want to take further steps in this interesting and challenging area Based on the results that have been obtained future research directions are presented that may lead towards practical use of concurrent planning of railway maintenance and train services

Incomplete Without My Brother, Adonis Kaizer Mabhilidi Nyatsumba, 2014-07-22 We walked on a patch of grass that seemed to have been burnt a few hours earlier with soot covering our feet There in front of us lay my beloved brother Adonis lifeless his body facing up There were numerous stab wounds on his body including his face and his lumber jacket was half burnt Thus begins Kaizer Nyatsumba's tragic story of his twin brother's horrible murder It is also an intriguing look into aspects of South African life hitherto unknown to many They were twins of a special kind the closest of friends and each other's confidantes Their mothers were sisters they were inseparable when they grew up they were the first graduates in the extended family and were the ones the family depended on for leadership When Adonis was brutally murdered in the Pretoria area in June 2009 Kaizer was shattered and his life irrevocably changed A part of him died with Adonis and he has yet to come fully to terms with the loss A very private man the author bares his soul in this book
