Youngstrom, Mitchell J.

Prinstein, Eric J. Mash, Russell A. Barkley, 2020-08-27 Now in its fifth edition this leading text and clinical guide offers best practice recommendations for assessing a comprehensive array of child and adolescent mental health problems and health risks. Leading authorities provide an overview of each disorder and describe methods and procedures that take into account the developmental, biological, familial, and cultural contexts of children's problems and that can inform sound clinical decision making. The fifth edition has been thoroughly updated with the growing knowledge base on child and family disorders and evidence-based assessment.

Adaptive Behavior Assessment System-II Thomas Oakland, Patti L. Harrison, 2011-10-10 Adaptive Behavior Assessment System II summarizes information on adaptive behavior and skills as well as general issues in adaptive behavior assessment with the goal of promoting sound assessment practice during uses, interpretations, and applications of the Adaptive Behavior Assessment System II. Adaptive behavior and skills refer to personal qualities associated with the ability to meet one's personal needs such as communication, self-care, socialization, etc., and those of others. Data from measures of adaptive behavior have been used most commonly in assessment and intervention services for persons with mental retardation. However, the display of adaptive behaviors and skills is relevant to all persons. The Adaptive Behavior Assessment System II (ABAS II) provides a comprehensive norm-referenced assessment of the adaptive behavior and skills of individuals from birth through age 89. The comprehensive nature of the ABAS II, ease in administration and scoring, and wide age range have resulted in its widespread use for a large number of assessment purposes. The book provides practical information and thus serves as a valuable resource for those who use the ABAS II. Assists in the functional use of the ABAS II. Provides case studies illustrating use of the ABAS II in comprehensive assessment and intervention planning. Reviews scholarship on adaptive behaviors and skills. Describes legal, ethical, and other professional standards and guidelines that apply to the use of the ABAS II and other measures of adaptive behavior. Discusses the use of the ABAS II with autism, mental retardation, young children, and those in elementary and secondary school as well as incarcerated persons being evaluated for possible mental retardation.

Cognitive-Behavioral Interventions in Educational Settings Ray W. Christner, Rosemary B. Mennuti, 2024-11-08 The thoroughly updated third edition of *Cognitive Behavioral Interventions in Educational Settings* offers readers a way to think strategically about individual students and plan for effective interventions based on the student's age, developmental level, and presenting problem. Written in a forward-thinking manner, this volume presents evidence-based interventions and offers both innovative and well-established approaches to working with children and adolescents in a school setting. The book begins by establishing foundational skills that provide updated information on CBT and a framework for working with youth and addresses timely issues such as schoolwide approaches to intervention, brief care models, ethnicity and race, and wellness programs. The second part of this volume uses CBT to explore strategies for building relationships, assessment, intervention, progress monitoring, and more. Case

studies and specific techniques are provided throughout each chapter Cognitive Behavioral Interventions in Educational Settings provides a complete overview for effective practice using CBT in schools
