Arkansas in Modern America since 1930 Ben F. Johnson III, 2019-08-30 This second edition of *Arkansas in Modern America since 1930* represents a significant rewriting of and elaboration on the first edition published in 2000. Historian Ben F. Johnson fills in gaps, reconsiders his original conclusions and reflects on new developments in historical scholarship extending the book's analysis of the political, economic, social and cultural positions into 2018. Particularly impressive for the breadth of its scope, *Arkansas in Modern America since 1930* offers an overview of the factors that moved Arkansas from a primarily rural society to one more in step with the modern economy and perspectives of the nation as a whole. The narrative covers the roles of Daisy Bates, Sam Walton, Don Tyson, Bill Clinton and other influential figures in the state's history to reveal a state shaped by global as much as by local forces. The second edition of this important book will continue to set the standard for analysis and interpretation of Arkansas's place in the contemporary world.

Neoliberalism, Management and Religion Edward Wray-Bliss, 2019-03-14 The use of non secular religious concepts in contemporary managerial discourse to legitimise leadership, organisation and work has been undertheorised. Concepts such as organisational soul, Spiritual Leadership, a wider deification and demonisation of leaders and the mantra of individual freedom each evoke long religious historical roots. The deployment of such terms in the present to re enrol people into the service of capitalism speaks both to high levels of religious belief worldwide and more specifically to a history of religion intersecting with public life in the US, a context pivotal in the development and dissemination of managerialism and wider neoliberal discourse. Organised around the concepts of God's Devils, Soul and the Individual, this book will show how these concepts are being employed in current managerial leadership and organisation discourses, critically examine the religious historical and philosophical roots of such and demonstrate how the religious historical and religious philosophical can be brought into the lexicon of critical organisational scholarship to provide a language to engage with the non secular legitimisation of capitalism and its institutions. In so doing, this book is a timely addition to organisation and management theory. It comes at a time that is witnessing a wider theological turn in continental philosophy, mounting calls within organisation studies to take religion seriously and an ongoing legitimisation crisis of neoliberalism, one that is raising pivotal questions concerning how neoliberalism endures despite the deprivations and harms it occasions. This book is intended to be engaging and erudite, drawing upon a trans disciplinary combination of popular and academic management texts, contemporary and classical philosophy, literature and religious historical sources foundational in the construction of the Western subject.

Awaiting the City Chad Brand, Tom Pratt, 2012-11-13 People of faith have always been on search for the homeland first promised to Abraham in light of the Babylonian civilization he left. That future hope was reinterpreted by Jesus

and taken up by St Augustine in The City of God reinterpreted again by John Calvin in Geneva and given a final form by the Puritan pilgrims who came to America to establish the City upon a Hill Fundamental to this quest for a just holy civilization has been the progress of humankind on the earth in light of the mandate to fill and rule over it Authors Chad Brand and Tom Pratt discuss that progress as they answer the vital questions for praxis How should biblically oriented Christians think of and work toward God s justice along the way How can we steer between a utopian vision and a limited vision to a new rational compassion

Righting the American Dream Diane Winston,2023-07-28 A provocative new history of how the news media facilitated the Reagan Revolution and the rise of the religious Right After two years in the White House an aging and increasingly unpopular Ronald Reagan looked like a one term president but in 1983 something changed Reagan spoke of his embattled agenda as a spiritual rather than a political project and cast his vision for limited government and market economics as the natural outworking of religious conviction The news media broadcast this message with enthusiasm and white evangelicals rallied to the president s cause With their support Reagan won reelection and continued to dismantle the welfare state unraveling a political consensus that stood for half a century In Righting the American Dream Diane Winston reveals how support for Reagan emerged from a new religious vision of American identity circulating in the popular press Through four key events the evil empire speech AIDS outbreak invasion of Grenada and rise in American poverty rates Winston shows that many journalists uncritically adopted Reagan s religious rhetoric and ultimately mainstreamed otherwise unpopular evangelical ideas about individual responsibility The result is a provocative new account of how Reagan together with the press turned America to the right and initiated a social revolution that continues today
