Tombstone The Untold Story Of Maos Great Famine:

Tombstone Jisheng Yang, 2012 I call this book Tombstone It is a tombstone for my father who died of starvation in 1959 for the thirty six million Chinese who also starved to death for the system that brought about their death and perhaps for myself for writing this book In one of the 20th Century s most nightmarish events an estimated thirty six million men women and children were killed by starvation or physical abuse from 1958 to 1961 during China s Great Leap Forward More people died in Mao s Great Famine than in the entire First World War yet the Communist Party continues to deny it was anything more than three years of natural disaster This official concealment and what Yang Jisheng calls historical amnesia imposed by those in power mean one of the most harrowing and dramatic chapters of human history has remained substantially untold even among the victims and their families until now Tombstone is Yang Jisheng s challenge to this eradication of memory by totalitarianism As a journalist and Communist Party insider with privileged access to official and unofficial sources he has at last uncovered the true scale of the staggering human cost of this tragedy Based on a vast array of new sources and personal testimonies taken over many years Tombstone is as significant and powerful a work as Solzhenitsyn s The Gulag Archipelago It remains banned in China but its publication in English serves as a memorial to the lives lost an enduring tombstone to the memory of the dead and as a hopeful anticipation of the final demise of the totalitarian system

An Analysis of Frank Dikotter's Mao's Great Famine John Wagner Givens, 2017-07-05 The power of Frank Dik tter s ground breaking work on the disaster that followed China s attempted Great Leap Forward lies not in the detail of his evidence though that shows that Mao s fumbled attempt at rapid industrialization probably cost 45 million Chinese lives It stems from the exceptional reasoning skills that allowed Dik tter to turn years of researching in obscure Chinese archives into a compelling narrative of disaster and above all to link two subjects that had been treated as distinct by most of his predecessors the extent of the crisis in the countryside and the actions hence the responsibility of the senior Chinese leadership In Dik tter s view ultimate responsibility for the catastrophe lies at the door of Mao Zedong himself the Chairman conceived and ordered the policies that led to the famine and he did nothing to reverse them or limit the damage that was being wrought when evidence for their disastrous impact reached him Dik tter s ability to persuade his readers of the fundamental truth of these arguments despite his admission that his access to sources was necessarily limited and incomplete together with the clear structure of his presentation combine to produce a work that has had enormous influence on perceptions of Mao and of the Great Leap Forward itself Provided by publisher

Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley, 2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world's next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping's best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao's China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People's Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level

State Propaganda in China's Entertainment Industry Shenshen Cai, 2016-05-20 Most current research on the evolution of China's propaganda discourse only touches upon recent variations of official propaganda rhetoric grounded in popular media Here the research is extended by tapping into the most recently released popular cultural media narratives such as online documentaries films TV drama serials and education programs all of which are enlisted and co-opted by the state for propaganda goals This book maps out the cutting edge expansions of official propaganda that are embedded in the entertainment industry of contemporary China Its case studies bring to light the progression of the mainstream propaganda discourse in terms of its merging cooperation and compromise with the commercial features of both the traditional and newly emerging entertainment media In particular it examines a group of mass entertainment products which include two best

Du, 2018-05-07 This book extends current research on the political economy of modern China with particular regard to agricultural development and its role in economic transition It uses Neoclassical principles to re interpret agricultural growth and technological change under complex market institutions with empirical studies on China and selected East Asian economies The text also questions how technological advances in China contribute to the Great Divergence debate Through a comparative analysis of agricultural technical changes in the planting of rice paddies in Japan Taiwan and China Du finds that different market institutions and structures have given rise to considerable diversity of agricultural change between different economies in terms of the nature timing and duration of technological transition Such diversification has in turn affected the trajectories of agricultural and wider economic growth Here Du reflects on the nature of contemporary Chinese economic development and extends observations on agricultural transition to the entirety of Asia finding that the nature timing and time span of agriculture technology transitions have varied considerably across different economies The Price

and Promise of Specialness Jin Li Lim, 2019-06-04 In The Price and Promise of Specialness Jin Li Lim revises narratives on the overseas Chinese and the People s Republic of China by analysing the Communist approach to overseas Chinese affairs in New China s first decade as a function of a larger political economy Jin Li Lim shows how the party state centred its approach towards the overseas Chinese on a perception of their financial utility and thus sought to offer them a special

identity and place in New China so as to unlock their riches Yet this contradicted the quest for socialist transformation and as its early pragmatism fell away the radicalising party state abandoned its promises to the overseas Chinese who were left to pay the price for their difference
