Walking Prey How Americas Youth Are Vulnerable To Sex Slavery:

Walking Prey Holly Austin Smith, 2024-09-04 Today two cultural forces are converging to make America's youth easy targets for sex traffickers Younger and younger girls are engaging in adult sexual attitudes and practices and the pressure to conform means thousands have little self worth and are vulnerable to exploitation At the same time thanks to social media texting and chatting services predators are able to ferret out their victims more easily than ever before In *Walking Prey* advocate and former victim Holly Austin Smith shows how middle class suburban communities are fast becoming the new epicenter of sex trafficking in America Smith speaks from experience Without consistent positive guidance or engagement Holly was ripe for exploitation at age fourteen A chance encounter with an older man led her to run away from home and she soon found herself on the streets of Atlantic City Her experience led her two decades later to become one of the foremost advocates for trafficking victims Smith argues that these young women should be treated as victims by law enforcement but that too often the criminal justice system lacks the resources and training to prevent the vicious cycle of prostitution This is a clarion call to take a sharp look at one of the most striking human rights abuses and one that is going on in our own backyard

The New Slave Narrative Laura T. Murphy, 2019-09-17 A century and a half after the abolition of slavery in the United States survivors of contemporary forms of enslavement from around the world have revived a powerful tool of the abolitionist movement first person narratives of slavery and freedom Just as Frederick Douglass Harriet Jacobs and others used autobiographical testimonies in the fight to eradicate slavery today's new slave narrators play a crucial role in shaping an antislavery agenda Their writings unveil the systemic underpinnings of global slavery while critiquing the precarity of their hard fought freedom At the same time the demands of antislavery organizations religious groups and book publishers circumscribe the voices of the enslaved coopting their narratives in support of alternative agendas In this pathbreaking interdisciplinary study Laura T Murphy argues that the slave narrative has reemerged as a twenty first century genre that has gained new currency in the context of the memoir boom post 9 11 anti Islamic sentiment and conservative family values politics She analyzes a diverse range of dozens of book length accounts of modern slavery from Africa Asia the United States the United Kingdom and Europe examining the narrative strategies that survivors of slavery employ to make their experiences legible and to promote a reinvigorated antislavery agenda By putting these stories into conversation with one another *The New Slave Narrative* reveals an emergent survivor centered counterdiscourse of collaboration and systemic change that offers an urgent critique of the systems that maintain contemporary slavery as well as of the human rights industry and the antislavery movement

Baker,2018-09-27 Campaigns against prostitution of young people in the United States have surged and ebbed multiple times over the last fifty years Fighting the US Youth Sex Trade Gender Race and Politics examines how politically and ideologically diverse activists joined together to change perceptions and public policies on youth involvement in the sex trade over time reframing juvenile prostitution of the 1970s as commercial sexual exploitation of children in the 1990s and then as domestic minor sex trafficking in the 2000s Based on organizational archives and interviews with activists Baker shows that these campaigns were fundamentally shaped by the politics of gender race and class and global anti trafficking campaigns The author argues that the very frames that have made these movements so successful in achieving new laws and programs for youth have limited their ability to achieve systematic reforms that could decrease youth vulnerability to involvement in the sex trade **Vulnerable** Raleigh Sadler,2019-02-01 There are more than 40 million enslaved people in the world today This is overwhelming A number so large leaves us asking What could I even do to help In his book Vulnerable Rethinking Human Trafficking Raleigh Sadler president and founder of Let My People Go makes the case that anyone can fight human trafficking by focusing on those who are most often targeted This book invites the reader to understand their role in the problem of human trafficking but more importantly their role in the solution Human trafficking can be defined as the exploitation of vulnerability for commercial gain Using the power of story and candid interviews Sadler seeks to discover how ordinary people can fight human trafficking by recognizing vulnerability and entering in As vulnerable people we can empower other vulnerable people because Christ was made vulnerable for us **Trafficked Children and Youth in the United States** Elzbieta M. Gozdzia,2016-05-10 Trafficked children are portrayed by the media and even by child welfare specialists as hapless victims who are forced to migrate from a poor country to the United States where they serve as sex slaves But as Elzbieta M Gozdzia reveals in Trafficked Children in the United States the picture is far more complex Basing her observations on research with 140 children most of them girls from countries all over the globe Gozdzia debunks many myths and uncovers the realities of the captivity rescue and rehabilitation of trafficked children She shows for

instance that none of the girls and boys portrayed in this book were kidnapped or physically forced to accompany their traffickers. In many instances parents or smugglers paid by family members brought the girls to the U S. Without exception the girls and boys in this study believed they were coming to the States to find employment and in some cases educational opportunities. Following them from the time they were trafficked to their years as young adults, Gozdziaik gives the children a voice so they can offer their own perspective on rebuilding their lives, getting jobs, learning English, developing friendships and finding love. Gozdziaik looks too at how the children's perspectives compare to the ideas of child welfare programs, noting that the children focus on survival techniques while the institutions focus not helpfully on vulnerability and pathology. Gozdziaik concludes that the services provided by institutions are in effect a one size fits all trauma based model one that ignores the diversity of experience among trafficked children. **Breaking new ground: Trafficked Children in the United States** offers a fresh take on what matters most to these young people as they rebuild their lives in America. **The Slave Next**

Door Kevin Bales, Ron Soodalter, 2010-06-15 Describes the practice of human trafficking that exists in the United States in the present day. Hidden in Plain Sight Kimberly Mehlman-Orozco, Pimp controlled sex workers, exploited migrants, domestic servants and sex trafficking of runaway and homeless youth are just a few of the many forms of sex trafficking and labor trafficking going on all around the world including in the United States. This book exposes both well known and more obscure forms of human trafficking, documenting how these heinous crimes are encountered in our daily lives. What types of human trafficking crimes are being committed here in the United States? Who are the victims of traffickers? How do we all unknowingly consume the services and products of slavery? And why are human traffickers able to maintain their illicit operations with relative impunity, indeed with less than 01 percent of human traffickers ever being held accountable for their crimes? Hidden in Plain Sight: America's Slaves of the New Millennium documents how human trafficking and its byproducts touch every community in America, from impoverished inner city neighborhoods to middle class suburbs and alcoves of wealthy estates. It presents information derived from narrative accounts of real life trafficking cases, interviews with convicted human traffickers, empirical research and criminal case files to expose the grim realities of human trafficking in America perpetrated by Americans. Readers will grasp the origins, evolution and extent of the problem, understand how trafficking plays an unrecognized role in our day to day lives and see why advancements in awareness and anti trafficking resources have not changed the status quo. The victims of trafficking continue to be criminalized by law enforcement and the offenders continue to exploit and profit from new recruits. This book equips readers with the knowledge needed to identify human trafficking cases and advocate for policy changes to end this scourge in America. *In Our Backyard* Nita Belles, 2015-05-26 In recent years Americans have woken up to the reality that human trafficking is not just something that happens in other countries. But what most still do not understand is that neither is it something that just happens to other people such as runaways or the disenfranchised. The human trafficker is no respecter of faith, education or socioeconomic

status and even kids who are raised in solid families in middle and upper class suburbs can fall victim Likewise labor trafficking happens in our cities neighborhoods and rural areas Through true stories and years of boots on the ground experience including at the Super Bowl anti trafficking expert Nita Belles teaches readers everything they need to know about human trafficking in the United States and what they can do to join the fight against it She helps concerned parents friends teachers law enforcement government officials and other leaders understand all forms of trafficking identify risk factors and take practical steps to keep their loved ones and neighbors safe from predators
