Army Leadership and the Profession (ADP 6-22) Headquarters Department of the Army, 2019-10-09 ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of leaders of all cohorts and all organizations regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively within superior leaders' intent and purpose and in the organization's best interests. Army leaders recognize that organizations built on mutual trust and confidence accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates; they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

Successful Supervisory Leadership William J. Rothwell, Behnam Bakhshandeh, Aileen G. Zaballero, 2023-05-22 Why Study Supervision This book presents two compelling reasons to study supervision and supervisory leadership. Influential Position Supervisors exert considerable influence on organizational settings. Supervisors have been schooled, developed, and trained for their responsibilities. They can function more effectively than if they learn through informal, sometimes haphazard means. It thus pays to learn about supervision because supervisors can influence how efficiently and effectively their organization functions. Career Path Many career paths lead to supervision. Supervisors are everywhere. Supervisors are teachers, doctors, accountants, lawyers, plumbers, and electricians. If you aspire to advance within your occupation, you may find that one career path leads to supervision. Preparing for supervisory responsibilities can prepare you for advancement. You may thus have a personal stake in your own future in learning about what supervisors do and how they do it. In addition, this book provides strategies for building solid relationships with team members. Uses positivity as a foundational practice to lead and encourage other employees. Provides guidelines on how to hold employees accountable and set high expectations. Presents strategies to engage, coach, and develop employees by creating a positive environment to influence attitudes and behaviors. Offers various approaches for managing time and increasing productivity.
