Tombstone The Great Chinese Famine 1958 196:

Tombstone Yang Jisheng, 2012-10-30 A veteran journalist presents an epic account of the worst famine in history a landmark in the Chinese people's own efforts to confront their history Ian Johnson The New York Review of Books An estimated thirty six million Chinese men women and children starved to death during China's Great Leap Forward in the late 1950s and early 60s One of the greatest tragedies of the twentieth century the famine is poorly understood and in China is still euphemistically referred to as the three years of natural disaster As a journalist with privileged access to official and unofficial sources Yang Jisheng spent twenty years piecing together the events that led to mass nationwide starvation including the death of his own father Finding no natural causes Yang attributes responsibility for the deaths to China's totalitarian system and the refusal of officials at every level to value human life over ideology and self interest *Tombstone* is a testament to inhumanity and occasional heroism that pits collective memory against the historical amnesia imposed by those in power Stunning in scale and arresting in its detailed account of the staggering human cost of this tragedy *Tombstone* is written both as a memorial to the lives lost an enduring tombstone in memory of the dead and in hopeful anticipation of the final demise of the totalitarian system

Railroads and the Transformation of China Elisabeth Köll, 2019-01-14 To convey modern China's history and the forces driving its economic success rail has no equal From warlordism to Cultural Revolution railroads suffered the country's ills but persisted because they were exemplary institutions Elisabeth Köll shows why they remain essential to the PRC's technocratic economic model for China's future

The World Turned Upside Down Yang Jisheng, 2021-01-19 Yang Jisheng's *The World Turned Upside Down* is the definitive history of the Cultural Revolution in withering and heartbreaking detail As a major political event and a crucial turning point in the history of the People's Republic of China the Great Proletarian Cultural Revolution 1966 1976 marked the zenith as well as the nadir of Mao Zedong's ultra leftist politics Reacting in part to the Soviet Union's revisionism that he regarded as a threat to the future of socialism Mao mobilized the masses in a battle against what he called bourgeois forces within the Chinese Communist Party CCP This ten year long class struggle on a massive scale devastated traditional Chinese culture as well as the nation's economy Following his groundbreaking and award winning history of the Great Famine *Tombstone* Yang Jisheng here presents the only history of the Cultural Revolution by an independent scholar based in mainland China and makes a crucial contribution to understanding those years lasting influence today *The World Turned Upside Down* puts every political incident major and minor of those ten years under extraordinary and withering scrutiny and arrives in English at a moment when contemporary Chinese governance is leaning once more toward a highly centralized power structure and Mao style cult of personality

An Anatomy of Chinese Perry Link, 2013-02-18 Rhythms conceptual metaphors and political language convey meanings of which Chinese speakers themselves may not be aware Link's *Anatomy of Chinese* contributes to the debate over whether language shapes thought or vice versa and its comparison of English with Chinese lends support to

theories that locate the origins of language in the brain
