Corn, Brian Horrigan, 1996-05-15 From Jules Verne to the Jetsons from a 500 passenger flying wing to an anti aircraft flying buzz saw the vision of the future as seen through the eyes of the past demonstrates the play of the American imagination on the canvas of the future Leading from the Inside Out David Grubb, Lynda Tredway, 2015-12-03 This book proposes that the collective responsibility of teachers as classroom and school leaders working together to solve their own problems provides the fulcrum of school change It makes the case that teachers and school leaders do not operate in a vacuum but rather they work within the larger context of policy and other social influences Grubb and Tredway provide the building blocks of history policy and social analysis that are necessary if teachers are to be effective in the collective school a place where adults thrive as learners and are able to co create joyful learning experiences for children and youth By encouraging teachers to move out of the individual classroom and to think critically and institutionally about the schools they would like to work in about their own responsibilities for creating such schools about the range of policies from outside the school and how they can influence those policies rather than being subjected to them this book shows that a teacher's influence is not limited to the classroom and students but can significantly shape and inform external policies and decisions **Teaching English Learners** Kip Tellez, 2016-01-08 This book examines the teaching of English language learners ELL by exploring topics not typically covered in theory or methods textbooks Although methods texts commonly draw readers through well known strategies such as the audio lingual method this book by contrast focuses attention on how music can advance and improve language skills Looking broadly at the sociocultural implications of ELD Tellez examines the role of the teacher in introducing and inspiring students to learn both a new language and a new society Furthermore he offers alternative views of language and shows how a deeper understanding of it can shape and enrich the lives of both students and teachers Drawing upon progressive pragmatic philosophy of Dewey Addams and Rorty this book helps teachers to understand the important lineage and profession they have joined or will join and the urgent role they play as agents of democratic ideals and actions Teaching Without Bells Joey Feldman, 2016-01-08 Small schools have the potential to fundamentally change the conditions of teaching and learning when practitioners deliberately exploit smallness and recognize relationships as a powerful mechanism for improving student achievement

Feldman explains the dynamics of teaching in a small high school what having fewer students in a school affords teachers as well as the challenges for teaching that exist alongside the opportunities based on research teacher interviews and the author's own experiences as a practitioner in both small and large schools This book is for any educator or researcher who wants to better understand the kind of promising practices and professional norms that have been nurtured under conditions of smallness Being informed about what is possible and often facilitated in small schools will enable educators to better reflect on their own practice consider certain pedagogical strategies against the organizational characteristics of schools and make educated career choices Armed with this information educators and researchers can become more focused in their advocacy efforts and more empowered to improve our public high schools whether by redesigning them into small schools or by transplanting and translating small school practices and strategies

Making a Difference Karen Hunter-Quartz,Brad Olsen,Lauren Anderson,Kimberly Barraza-Lyons,2016-01-08 Our culture and media often simplify the choice educators face stay in or leave classroom teaching Written for teachers and other educational professionals this book dispels this simple dichotomy by representing the range of responses and career pathways that enable educators to make a difference Based on interviews with hundreds of change minded educators the authors share career stories and insights against a backdrop that maps out the complexities roles and structures that define professional advancement in education All of the teachers in this book have taught in challenging urban contexts fought hard to exercise their professional autonomy and responsibility to serve students well navigated social networks of educators friends and family who buoy or dampen their reform spirit and remain committed to changing society through schooling Their stories are as instructive as they are inspiring and offer roadmaps for the current generation of change minded educators

Teaching Toward Democracy William Ayers,Kevin Kumashiro,Erica Meiners,Therese Quinn,David Stovall,2015-11-17 Teaching Toward Democracy examines the contested space of schooling and school reform with a focus on the unique challenges and opportunities that teaching in a democratic society provides Teaching in and for democracy involves developing particular qualities of mind that teachers explore and work to develop as they become more effective educators Some chapters open with familiar experiences in the lives of teachers in schools working with parents and communities or dealing with classroom discipline and management and illuminate that commonplace in new helpful and sometimes startling ways Other chapters present possible interventions any teacher might make in any classroom for example using the arts as an organizing center and metaphor for teaching more generally or rethinking the press of politics on our every day practice This book foregrounds the central idea that democratic ideals are a necessary starting point and context in which to enact our teaching here and now

Lady Killer Jenny Gardiner, 2019-11-26 Don't go bacon my heart Animal lover Coco Lovington wants to recharge her soul after a bruising attempt to succeed as an actress in Los Angeles so she returns home to Bristol Montana to a simpler life working at an animal rescue clinic to recharge her broken spirit She's perfectly content filling her days caring for abandoned creatures enjoying lone strolls in the mountains and reconnecting with old friends but soon learns how precious life is when she takes a wrong turn on a dense forest hike and can't find her way out Elliott Barbour was seriously not looking for a pig in his life In fact the only reason he'd even stopped by the Second Chances rescue clinic was to get his mother a kitten for her birthday Until he's talked out of it by a cute employee who argues that a cat can live a long damned time and his mom wasn't getting any younger Which would mean he'd get stuck some day with a fusty feline pure torture what with his allergies When he takes one look at Oink the miniature pig battling her come hither lashes at him what's he to do but go in whole hog and bring her home as the unusual pet his mother never knew she'd love Too late he realizes that he's got an unwanted pig in a poke since miniature pigs are a lot of work and don't remain so tiny after all and his mom declines the porcine gift No sooner is the feisty little porker making him crazy than he's tasked with spearheading the rescue of some dumb woman who's gone missing after foolishly heading off in the mountains without even a cell phone or a bottle of water Elliott counts the minutes till he can give her a piece of his mind for her irresponsibility that is if he's even able to find her alive

Hard to Get Jenny Gardiner, 2020-10-06 Shrimply irresistible Lola Quigley can't believe her good luck when she wins a spot on the Food Channel's popular Shop till you Drop The show features amateur foodies competing to produce a prize winning meal from staples commonly found in food banks where people often unload their most unwanted pantry items Having lived on a near poverty level budget for a few dark years when her life imploded unexpectedly Lola had grown to love the challenge of creating delicious meals with the cheapest ingredients she could find on the sale shelf of the grocery store or in a twist of irony donated from her local food bank She just has to win this the prize money would help her launch the soup kitchen food truck she's dreamed of starting It'll be her way of paying it forward after she managed to dig out of a financial hole she'd doubted she ever could escape Levi Patton is pissed He's stuck doing penance as a guest chef on an annoying cable reality TV show where overly enthusiastic wannabes try to outdo him with random undesirable ingredients Will he ever get over the meteoric crash of his career after a food critic found the unmistakable tail of a rat floating atop his bouillabaisse

at Levi's revered Washington DC restaurant. Convinced but unable to prove that a jealous sous chef sabotaged him, his name is now mud in the food world. He's drowning in the veritable toilet of the culinary industry competing on *Shop till you Drop*. And he's totally screwed when he ends up pitted against the overly cheerful brunette with the tattoo of Popeye on her bicep, the very woman he'd left at the altar nearly a decade ago.
