Too Close To Home Women Of Justice Series 1:

Too Close to Home (Women of Justice Book #1) Lynette Eason, 2010-04-01 Samantha Cash is the FBI's secret weapon. Her methods are invisible and she never stops until the case is closed. When missing teens begin turning up dead in a small Southern town, Samantha is assigned to help local chief Connor Wolfe find the killer. And he has two problems with that: There's her faith in God and herself. And then there's the fact that she looks exactly like his late wife. As they get close to an answer, the case becomes personal. The killer seems to be taking an interest in Connor's 16-year-old daughter who thinks her dad is getting way too protective. Can't a girl just have some fun? *Too Close to Home* ratchets up the suspense with each page and will have readers cheering for the characters they love as justice is served and love grows even in the face of danger. Read this one with the lights on.

World Report on Violence and Health World Health Organization, 2002 This report is part of WHO's response to the 49th World Health Assembly held in 1996 which adopted a resolution declaring violence a major and growing public health problem across the world. It is aimed largely at researchers and practitioners including health care workers, social workers, educators, and law enforcement officials.

Social Justice and Gender Equality Günseli Berik, Yana van der Meulen Rodgers, Ann Zammit, 2012-10-12 The contributors to this edited volume explore the effects of various development strategies and associated macroeconomic policies on women's well-being and progress towards gender equality. Detailed analyses of major UN reports on gender reveal the different approaches to assessing absolute and relative progress for women and the need to take into account the specifics of policy regimes when making such assessments. The book argues that neoliberal policies, especially the liberalization of trade and investment, make it difficult to close gender wage and earnings gaps and new gender-sensitive policies need to be devised. These and other issues are all examined in more detail in several gendered development histories of countries from Latin America and Asia.

Criminal Psychology Jacqueline B. Helfgott, 2013-04-01 This comprehensive four-volume reference set on the subject of criminal psychology includes contributions from top scholars and practitioners in the field explaining new and emerging theory and research in the study of the criminal mind and criminal behavior. Unfortunately, criminal behavior surrounds us in our society from petty theft and vandalism to multimillion-dollar white-collar crime to shocking terrorism attempts and school killings. Invariably, one of the first questions is, "Why did they do it?" Criminal psychology seeks to solve this complex puzzle. In this four-volume reference work, a unparalleled team of leading experts offer an exhaustive look at the history, developments, emerging and classic research issues, controversies, and victories in the expanding field of criminal psychology. The first volume examines the general theories in the study of criminal psychology. The second volume focuses more specifically on research of criminal behavior and crime types, while the last two volumes delve into criminal justice and forensic applications. The comprehensive content allows readers to better understand criminal behavior and appreciate the specific criminal justice and forensic settings in which this theory and research is applied, such as criminal profiling, forensic assessment of danger, and

correctional rehabilitation and offender reentry *Gender, Violence, and Justice* Pamela Cooper-White, 2019-03-20 *Gender Violence and Justice* is a volume of collected essays by an expert in the field of violence against women and pastoral theology. It represents over three decades of research advocacy and pastoral theological reflection on the subject of sexual and domestic violence. Topics include intimate partner violence, sexual abuse and trauma, and clergy sexual misconduct. It addresses controversial theological issues such as forgiveness and, as well, positive frameworks for fostering well-being in families, church, and society. Framed by a foreword and an introduction that place this work in the context of new and contemporary challenges in theory and practice, these essays show an evolution of issues and frameworks for theology, care, and activism arising over time from the movement to end violence against women both within and beyond religious communities while at the same time demonstrating an unchanging core commitment to gender justice.

Women and Children as Victims and Offenders: Background, Prevention, Reintegration Helmut Kury, Sławomir Redo, Evelyn Shea, 2016-06-20 This work compiles experiences and lessons learned in meeting the unique needs of women and children regarding crime prevention and criminal justice, in particular the treatment and social reintegration of offenders, and serves as a cross-disciplinary work for academic and policy-making analyses and follow-up in developing and developed countries. Furthermore, it argues for a more humane and effective approach to countering delinquency and crime among future generations. In a world where development positively depends on the rule of law and the related investment security, two global trends may chart the course of development: urbanization and education. Urbanization will globalize the concepts of justice and fairness; education will be dominated by the urban mindset and digital service economy, just as a culture of lawfulness will. This work looks at crime prevention education as an investment in the sustainable quality of life of succeeding generations and at those who pursue such crime prevention as the providers of much-needed skills in the educational portfolio. Adopting a reformist approach, this work collects articles with findings and recommendations that may be relevant to domestic and international policymaking, including the United Nations Studies and their educational value for the welfare of coming generations. The books address the relevant United Nations ideas by combining them with academic approaches. Guided by the Editors' respective fields of expertise and in full recognition of academic freedom and organized scepticism, it includes contributions by lawyers, criminologists, sociologists, and other eminent experts seeking to bridge the gap between academic and policy perspectives as appropriate against the international background, including the United Nations developments. The second volume opens with Part IV, which presents articles on different kinds of crime prevention. The effectiveness of punishment and, in particular, imprisonment is examined by contrasting it with alternative sanctions, and the following questions are raised: Does harsh punishment have a crime preventive effect? What are the side effects of imprisonment on the offenders and their families? Are alternatives such as restorative justice or mediation more effective and cheaper? Part V outlines proactive strategies of crime prevention, e.g. for potential sex offenders or in the domain of internet crime. Part VI envisions a more

peaceful and inclusive society which would be realized by improving the protection of women and children in their everyday life and easing the reintegration of those who have become offenders The importance of the role played by the UN in formulating these goals is underlined The volume concludes with an epilogue of the 70th President of the United Nations Economic and Social Council Martin Sajdik and a post scriptum of the editors p **When the Smoke Clears** Lynette Eason,2012-02 In this thrilling romantic suspense smokejumper Alexia Allen returns home to face her past only to find a long buried secret that threatens her life Rebel Salvation Kathleen Zebley Liulevicius,2021-06-09 Winner of the Tennessee History Book Award In *Rebel Salvation* Kathleen Zebley Liulevicius examines pardon petitions from former Confederate soldiers and sympathizers in Tennessee to craft a unique and comprehensive analysis of the process of Reconstruction in the Volunteer State after the Civil War These underutilized petitions contain a wealth of information about Tennesseans from an array of social and economic backgrounds and include details about many residents who would otherwise not appear in the historical record They reveal the dynamics at work between multiple factions in the state former Rebels Unionists Governor William G Brownlow and the U S Army officers responsible for ushering Tennessee back into the Union The pardons also illuminate the reality of the politically and emotionally charged post Civil War environment where everyone from wealthy elites to impoverished sharecroppers who had fought supported or expressed sympathy for the Confederacy was required by law to sue for pardon to reclaim certain privileges All such requests arrived at the desk of President Andrew Johnson who ultimately determined which petitioners regained the right to vote hold office practice law operate a business and buy and sell land Those individuals filing petitions experienced Reconstruction in personal and profound ways Supplicants wrote and circulated their exoneration documents among loyalist neighbors friends and Union officers to obtain favorable endorsements that might persuade Brownlow and Johnson to grant pardon Former Rebels relayed narratives about the motivating factors compelling them to side with the Confederacy chronicled their actions during the war expressed repentance and pledged allegiance to the United States government and the Constitution Although not required many petitioners even sought recommendations from their former wartime foes The pardoning of former Confederates proved a collaborative process in which neighbors acquaintances and erstwhile enemies lodged formal pleas to grant or deny clemency from state and federal officials Indeed as *Rebel Salvation* reveals the long road to peace began here in the newly reunited communities of postwar Tennessee *Health and Medical Geography in Africa* Yemi Adewoyin,2023-10-30 This contributed volume focuses on the evolution and current state of the sub discipline of health and medical geography in Africa It encompasses theoretical and methodological issues as well as the current teaching and research capacities of institutions offering programs in health and medical geography in Africa Further the book will review the level of adoption of the sub discipline in State policies and practice and also provide practical illustrations with case studies of how studies in the sub discipline are central to the actualization of Africa s development agenda Particular attention is paid to the relationship between health and development
