cognitivism debate explores the practice of close reading from a philosophical perspective provides a fresh account of what we mean by understanding and in so doing opens up a new area of research in the philosophy of literature This book provides a different reply to the challenge that we can't learn anything worthwhile from reading literary fiction It makes the innovative case that reading literary fiction as literature rather than as fiction stimulates five relevant senses of understanding The book uses examples of irony metaphor play with perspective and ambiguity to illustrate this contention Before arguing that these five senses of understanding bridge the gap between our understanding of a literary text and our understanding of the world beyond that text The book will be of great interest for researchers scholars and post graduate students in the fields of aesthetics literary theory literature in education and pedagogy **Laura Middleton: Her Brother and Her Lover (Illustrated)** Anonymous, 2022-03-23

Craske, 2025-05-17 *Complicity in Fin de siècle Literature* examines late nineteenth century French understandings of literature as a morally collusive medium which implicates readers writers and critics in risqué or illicit ideas and behaviour. It considers definitions of complicity from the period's evolving legal statutes, critical debates about literary bad influence and modern theories of reader response in order to achieve a deeper understanding of how cultural production of the period forged relationships of implication and collusion. While focusing on fin de siècle French culture, the book's theoretical discussions provide a new terminology and conceptual framework through which to analyse literary influence and reception applicable to different historical periods and national settings. Interdisciplinary in nature, the study draws on methods associated with close reading, literary history, law and literature studies, cultural studies and sociology of literature. Each of the book's chapters highlights how particular literary themes or techniques encouraged readers' identification with transgression and facilitated alternative forms of solidarity. The analysis draws on a range of case studies from different media forms including Naturalist, Decadent and psychological novels, biographically revealing fiction, romans clefs, little magazines, petites revues and saucy magazines, revues lésées. Texts written by well-known literary figures such as Émile Zola, Octave Mirbeau and Rachilde appear alongside previously overlooked periodical and archival sources. The book's varied corpus reveals the widespread appeal of risqué topics and illicit solidarity across the literary spectrum.
