Anti-Porn Julia Long, 2012-09-13 Anti porn feminism is back Countering the ongoing pornification of Western culture and society with lads mags on the middle shelf and lap dancing clubs in residential areas anti porn movements are re emerging among a new generation of feminist activists worldwide This essential new guide to the problems with porn starts with a history of modern pro and anti political stances before examining the ways in which the new arguments and campaigns around pornography are articulated deployed and received Drawing on original ethnographic research it provides an in depth analysis of the groups campaigning against the pornography industry today as well as some eye opening facts about the damage porn can do to women and society as a whole This unique and inspiring book explains the powerful comeback of anti porn feminism and it controversially challenges liberal perspectives and the mainstreaming of a porn culture that threatens to change the very nature of our intimate relationships The Wright Legacy Vol. 1- The Proposal Phoenix

Wright, 2011-04-22 A poetry book for mature adults and those who can appreciate the full palette of life **Algorithms of Oppression** Safiya Umoja Noble, 2018-01-08 A revealing look at how negative biases against women of color are embedded in search engine results and algorithms Run a Google search for black girls what will you find Big Booty and other sexually explicit terms are likely to come up as top search terms But if you type in white girls the results are radically different The suggested porn sites and un moderated discussions about why black women are so sassy or why black women are so angry presents a disturbing portrait of black womanhood in modern society In Algorithms of Oppression Safiya Umoja Noble challenges the idea that search engines like Google offer an equal playing field for all forms of ideas identities and activities Data discrimination is a real social problem Noble argues that the combination of private interests in promoting certain sites along with the monopoly status of a relatively small number of Internet search engines leads to a biased set of search algorithms that privilege whiteness and discriminate against people of color specifically women of color Through an analysis of textual and media searches as well as extensive research on paid online advertising Noble exposes a culture of racism and sexism in the way discoverability is created online As search engines and their related companies grow in importance operating as a source for email a major vehicle for primary and secondary school learning and beyond understanding and reversing these disquieting trends and discriminatory practices is of utmost importance An original surprising and at times disturbing account of bias on the internet Algorithms of Oppression contributes to our understanding of how racism is created maintained and disseminated in the 21st century **Cash mit Erotik im Internet** Pascal Dupont
