

To Chain The Dog Of War To Chain The Dog Of War

L Cohen

To Chain The Dog Of War To Chain The Dog Of War:

To Chain the Dog of War Francis Dunham Wormuth, Edwin Brown Firmage, 1989 An important book that I wish every member of Congress and would be president would carefully study George McGovern A timely and valuable study that makes a useful contribution to preserving the Constitution and our hopes for survival *Journal of American History* To Chain the Dog of War does an excellent job of putting together some very complex material and it comes out at a most propitious time Arthur S Miller Professor of Law George Washington University A most thorough study it would be useful is this book could be prescribed to our decision makers as required reading Louis B Sohn University of Georgia School of Law *The Presidency and the Law* David Gray Adler, Michael A. Genovese, 2002 Political scandals have always demonstrated the capacity of our executive officials for self inflicted injuries and the Clinton administration was no exception Unilateral warmaking claims of executive privilege and immunity and last minute pardons all tested the limits of presidential power while the excesses of the Special Prosecutor cast doubts on available remedies For eight years Republicans and Democrats engaged in guerrilla warfare aimed at destroying the careers and lives of their adversaries while tests of presidential power were resolved by the courts resulting in a reshaping of the scope and power of the presidency itself This book examines the many controversial and important battles that led to the shrinking of the presidency under the law during the Clinton administration Located at the intersection of law and politics it helps readers understand the dramatic changes that took place in the relationship of presidential power to the law during the Clinton years and shows how one president's actions and congressional and legal reactions to them have altered presidential prerogatives in ways that his successors cannot ignore The Presidency and the Law offers an assessment of changes in constitutional and legal understanding of the American presidency exploring such topics as war power executive privilege pardon power impeachment executive immunity independent counsel and campaign finance In examining these collisions between president and the law its distinguished contributors bring the lessons of Watergate and Iran Contra into the Clinton era and contribute to a Madisonian view that presidents should not operate outside statutory and constitutional constraints While the essays offer several criticisms of that administration's exercise of power and its interpretation of constitutional provisions and law many of the authors have been supportive of Clinton and his policy pursuits and all seek to examine the potential impact of the Clinton administration without being predictive or legalistic They offer instead commentary analysis and criticism that examine the legality and constitutionality of President Clinton's actions within a broader political and historical context The presidency is constitutionally weaker and politically more vulnerable than the office Bill Clinton assumed in 1993 and it remains to be seen what impact these changes will have on the presidency in the 21st century This book points the way to assessing that impact and is essential reading for anyone concerned with the future of our democracy **Inventing the American Presidency** Thomas E. Cronin, 1989 In fourteen essays supplemented by relevant sections of and amendments to the Constitution and five

Federalist essays by Hamilton provides the reader with the essential historical and political analyses of who and what shaped the presidency

Reassessing the Presidency David Gordon, Thomas J. DiLorenzo, Thomas E. Woods, Jr, Yuri N. Maltsev, Ralph Raico, Paul Gottfried, Hans-Hermann Hoppe, 2013-09-19

American Despots Amazing low sale price in defense of authentic freedom as versus the presidency that betrayed it Everyone seems to agree that brutal dictators and despotic rulers deserve scorn and worse But why have historians been so willing to overlook the despotic actions of the United States own presidents You can scour libraries from one end to the other and encounter precious few criticisms of America s worst despots The founders imagined that the president would be a collegial leader with precious little power who constantly faced the threat of impeachment Today however the president orders thousands of young men and women to danger and death in foreign lands rubber stamps regulations that throw enterprises into upheaval controls the composition of the powerful Federal Reserve and manages the priorities millions of swarms of bureaucrats that vex the citizenry in every way It is not too much of a stretch to say that the president embodies the Leviathan state as we know it Or more precisely it is not an individual president so much as the very institution of the presidency that has been the major impediment of liberty The presidency as the founders imagined it has been displaced by democratically ratified serial despotism And for that reason it must be stopped Every American president seems to strive to make the historians A list by doing big and dramatic things wars occupations massive programs tyrannies large and small in hopes of being considered among the greats such as Lincoln Wilson and FDR They always imagine themselves as honored by future generations the worse their crimes the more the accolades Well the free ride ends with **Reassessing the Presidency The Rise of the Executive State and the Decline of Freedom** edited by John Denson This remarkable volume 825 pages including index and bibliography is the first full scale revision of the official history of the U S executive state It traces the progression of power exercised by American presidents from the early American Republic up to the eventual reality of the power hungry Caesars which later appear as president in American history Contributors examine the usual judgments of the historical profession to show the ugly side of supposed presidential greatness The mission inherent in this undertaking is to determine how the presidency degenerated into the office of American Caesar Did the character of the man who held the office corrupt it or did the power of the office as it evolved corrupt the man Or was it a combination of the two Was there too much latent power in the original creation of the office as the Anti Federalists claimed Or was the power externally created and added to the position by corrupt or misguided men There s never been a better guide to everything awful about American presidents No you won t get the civics text approach of see no evil Essay after essay details depredations that will shock you and wonder how American liberty could have ever survived in light of the rule of these people Contributors include George Bittlingmayer John V Denson Marshall L DeRosa Thomas J DiLorenzo Lowell Gallaway Richard M Gamble David Gordon Paul Gottfried Randall G Holcombe Hans Hermann Hoppe Jeffrey Rogers Hummel Michael Levin Yuri N Maltsev William Marina Ralph Raico Joseph Salerno Barry

Simpson Joseph Stromberg H Arthur Scott Trask Richard Vedder and Clyde Wilson **Delegating State Powers: The Effect of Treaty Regimes on Democracy and Sovereignty** Thomas Franck, 2021-10-25 This groundbreaking book deals with problems encountered by the United States in complying with international treaty obligations It examines the ways in which the American constitutional system sometimes adapts to and sometimes erects barriers against the new system of global solutions to global problems and investigates the resulting challenges on a treaty by treaty basis with special attention to such areas as human rights and disarmament Published under the Transnational Publishers imprint **The Great Anglo-Celtic Divide in the History of American Foreign Relations** Thomas A. Breslin, 2011-10-05 Positing that presidents shape America's foreign policy according to their ethnic heritage this intriguing volume examines two groups that have dominated the presidency and the distinctly different agendas that have resulted How is American foreign policy determined The Great Anglo Celtic Divide in the History of American Foreign Relations approaches that question from a fascinating perspective arguing that to a large extent the answer lies in the ethnicity of the president To make its point this book examines the key foreign policies of American presidents from George Washington to George W Bush and shows how their most important foreign policy decisions have tended to follow an ethnic pattern The presidency has been dominated by Americans from English or Celtic backgrounds since the nation's founding and as readers will discover the foreign policies of the two groups have been very different To document those differences this book analyzes seven alternating periods of political domination by Anglo Americans and Celtic Americans demonstrating how the cycle of change affected the shape and distinguishing characteristics of U S foreign policy in matters of war and peace and in relations with other countries

Texas International Law Journal , 1988 **Vietnam - A Dog's War** Richard Melton, Vietnam A Dog's War is about a group of men who were trained to walk patrol point with a German Shepherd dog This book is about the dogs and some of the incredible things they did to save lives The American Presidency Forrest McDonald, 1994 McDonald explores how and why the presidency has evolved into such a complex and powerful institution unlike any other in the world He chronicles the presidency's creation implementation and evolution and explains why it's still working today despite its many perceived afflictions Current Law Index , 1987 **Brigham Young University Studies** Brigham Young University, 1987 A voice for the community of LDS scholars *Transactions and Proceedings* Royal Society of New Zealand, 1892 **Transactions and Proceedings of the Royal Society of New Zealand** Royal Society of New Zealand, 1892 Includes proceedings of member institutes of the Society and of the Society's Science Congress through v 84 1956 57 Transactions Royal Society of New Zealand, 1892 **Constitutional Commentary** , 1988 Cases and Materials on the International Legal System , 1995

The Yale Journal of International Law , 1987 *Brigham Young University Law Review* , 1986 **Undeclared War and the Future of U.S. Foreign Policy** Kenneth B. Moss, 2008-04-23 Discusses the controversy between a declared war and an undeclared war and whether or not the President and Congress has a right to send troops according to the Constitution The

author suggests that to this very day almost all U S laws about the appropriate constitutional control over using force face serious challenges from developments such as future weapons technology and information technology since they originated out of the eighteenth century *Weber Studies* ,1987

Delve into the emotional tapestry woven by Emotional Journey with in **To Chain The Dog Of War To Chain The Dog Of War** .
