□□□ J. Hershy Worch,2010 Sefer Yetzira is a sacred book of great antiquity and power and one of Judaism's oldest texts after the Bible In this new translation and commentary Rabbi Worch leads us step by step through innermost chambers of Jewish mysticism We are allowed to listen in to the arguments between Moses and God to the whispered dialogue between Rabbis Akiba and Ishmael and to those fervid and passionate practitioners of whose ecstasies these pages remain redolent In the beginning was God's desire for us Sefer Yetzira describes the process whereby desire materializes in the Breath of God and thence into the Ten Sephiroth and twenty two letters of the Hebrew alphabet Commentaries to the Sefer Yetzira through the ages have reflected the spirit and yearning of those times the genius and romance of the zeitgeist be it philosophical mathematical or contemplative This commentary reflects the strikingly mystical qualities of Hasidism and the post modern approach to text In this book we read how to listen for the breath of the Living God how to hear it and breathe it back in the mystery of our sacred kisses *Unsettling Sexuality* Jeremy Chow,Shelby Johnson,2024-10-11 This book is also freely

Moore,2017-11-07 *Sexual Disorientations* brings some of the most recent and significant works of queer theory into conversation with the overlapping fields of biblical theological and religious studies to explore the deep theological resonances of questions about the social and cultural construction of time memory and futurity Apocalyptic eschatological and apophatic languages frameworks and orientations pervade both queer theorizing and theologizing about time affect history and desire The volume fosters a more explicit engagement between theories of queer temporality and affectivity and religious texts and discourses [The Masculine Self in Late Medieval England](#) Derek G. Neal,2009-05-15 What did it mean to be a man in medieval England Most would answer this question by alluding to the power and status men enjoyed in a patriarchal society or they might refer to iconic images of chivalrous

knights While these popular ideas do have their roots in the history of the aristocracy the experience of ordinary men was far more complicated Marshalling a wide array of colorful evidence including legal records letters medical sources and the literature of the period Derek G Neal here plumbs the social and cultural significance of masculinity during the generations born between the Black Death and the Protestant Reformation He discovers that social relations between men founded on the ideals of honesty and self restraint were at least as important as their domination and control of women in defining their identities By carefully exploring the social physical and psychological aspects of masculinity *The Masculine Self in Late Medieval England* offers a uniquely comprehensive account of the exterior and interior lives of medieval men **Birthing**

Black Mothers Jennifer C. Nash, 2021-07-06 In *Birthing Black Mothers* Black feminist theorist Jennifer C Nash examines how the figure of the Black mother has become a powerful political category Mothering while Black has become synonymous with crisis as well as a site of cultural interest empathy fascination and support Cast as suffering and traumatized by their proximity to Black death especially through medical racism and state sanctioned police violence Black mothers are often rendered as one dimensional symbols of tragic heroism In contrast Nash examines Black mothers self representations and public performances of motherhood including Black doulas and breastfeeding advocates alongside celebrities such as Beyonc Serena Williams and Michelle Obama that are not rooted in loss Through cultural critique and in depth interviews Nash acknowledges the complexities of Black motherhood outside its use as political currency Throughout Nash imagines a Black feminist project that refuses the lure of locating the precarity of Black life in women and instead invites readers to theorize organize and dream into being new modes of Black motherhood *Emotion, Cognition, and the Virtue of Flexibility* Isabel Kaeslin, 2023-10-04 Should emotions play a role in our decisions even if they are just feelings and not necessarily imbued with reason or cognitively penetrated The author shows that such basic feelings as aversion and attraction can be important normative guides by disrupting engrained habits and beliefs enabling us to reconsider our ways which is important due to the ever changing nature of ethical demands on us Therefore these feelings should guide our decisions even if they are not cognitive This book fills a gap in the philosophy of emotions ethics and virtue epistemology [Deleuze in Plain English](#) Robert Flix, Philosophy has never been this alive or this strange *Deleuze in Plain English* is an unapologetically lucid and occasionally amused walk through the work of Gilles Deleuze France's quiet revolutionary who turned metaphysics into a form of rebellion From *Difference and Repetition* to *A Thousand Plateaus* from cinema to sensation from Spinoza to cyberspace this book unpacks Deleuze's wild conceptual universe without turning it into academic soup You'll meet a thinker who saw reality as a swarm of intensities time as a living creature and thought as a machine that could build new worlds Along the way you'll encounter his unlikely allies Spinoza Nietzsche Bergson Guattari Bacon Leibniz and follow the evolution of a philosophy that continues to infect art politics film and digital culture Clear without being simplistic witty without being dismissive *Deleuze in Plain English* offers both a guide for the uninitiated and a mirror for those already tangled in his folds

Freedom and the Human Person Richard Velkley, 2007-12 In the Western tradition freedom and the human person have been at the center of philosophical theological moral and political debates since the origins of this tradition Although contemporary discourse betrays the multiplicity of these roots the necessary historical perspective for evaluating them is almost always lacking even in scholarly studies The terms freedom and person carry such overwhelming force in the modern world that the critical distance required for grasping what is at stake in using them is extremely hard to gain The present collection seeks to contribute toward finding that distance by making the tradition of thought more a living reality and not an object of arid analyses Unlike most collections the present one transcends disciplinary boundaries as it acknowledges the interconnectedness of philosophical theological and political arguments on these themes The contributors are prominent authorities in particular historical periods or in figures in Western thought and they treat approaches to freedom and the human person in ancient Greek biblical medieval and modern sources although the major emphasis is on the thought of leading philosophers Plato Boethius Aquinas Ockham Machiavelli Locke Kant Hegel Nietzsche Husserl et al Their essays bring forward profound contrasts in how freedom and personhood have been grounded and characterized notably the contrasts between groundings in natural reason and in supernatural revelation between premodern teleological thinking and modern thinking on self sovereignty without teleology and within modern thought between positions favoring individual autonomy and others securing freedom and its exercise in communal or traditional life Several of the papers shed light on the relations of freedom and personhood to the human powers of speech thought and judgment The contributors to the volume are Seth Benardete Michael Gillespie Leon Kass Robert B Pippin Robert Rethy John M Rist Brian J Shanley O P Susan Meld Shell Robert Sokolowski Eleonore Stump Nathan Tarcov and Michael P Zuckert with Jesse Covington and James Thompson Richard Velkley former professor of philosophy at the Catholic University of America is Celia Scott Weatherhead Professor of Philosophy at Tulane University He is author of *Freedom and the End of Reason On the Moral Foundation of Kant's Critical Philosophy* and *Being after Rousseau Philosophy and Culture in Question* Translating Early Modern China Carla Suzan Nappi, 2021 A volume on translation and language in China from the fifteenth to mid nineteenth centuries It uses fictional narrative to discuss translators who worked between Chinese and mostly non European languages and studies dictionaries language primers grammars poetry collections and conversation manuals *Between Levinas and Lacan* Mari Ruti, 2015-07-30 Levinas and Lacan two giants of contemporary theory represent schools of thought that seem poles apart In this major new work Mari Ruti charts the ethical terrain between them At first glance Levinasian and Lacanian approaches

may seem more or less incompatible and in many ways they are particularly in their understanding of the self other relationship For both Levinas and Lacan the subject s relationship to the other is primary in the sense that the subject literally does not exist without the other but they see the challenge of ethics quite differently while Levinas laments our failure to adequately meet the ethical demand arising from the other Lacan laments the consequences of our failure to adequately escape the forms this demand frequently takes Although this book outlines the major differences between Levinas and Judith Butler on the one hand and Lacan Slavoj i ek and Alain Badiou on the other Ruti proposes that underneath these differences one can discern a shared concern with the thorny relationship between the singularity of experience and the universality of ethics Between Levinas and Lacan is an important new book for anyone interested in contemporary theory ethics psychoanalysis and feminist and queer theory **Cruising Utopia, 10th Anniversary Edition** José Esteban

Muñoz,2019-04-23 A 10th anniversary edition of this field defining work an intellectual inspiration for a generation of LGBTQ scholars Cruising Utopia arrived in 2009 to insist that queerness must be reimagined as a futurity bound phenomenon an insistence on the potentiality of another world that would crack open the pragmatic present Part manifesto part love letter to the past and the future Jos Esteban Mu oz argued that the here and now were not enough and issued an urgent call for the revivification of the queer political imagination On the anniversary of its original publication this edition includes two essays that extend and expand the project of Cruising Utopia as well as a new foreword by the current editors of Sexual Cultures the book series he co founded with Ann Pellegrini 20 years ago This 10th anniversary edition celebrates the lasting impact that Cruising Utopia has had on the decade of queer of color critique that followed and introduces a new generation of readers to a future not yet here **Cruising Utopia** José Esteban Muñoz,2009-11-01 The LGBT agenda for too long has been

dominated by pragmatic issues like same sex marriage and gays in the military It has been stifled by this myopic focus on the present which is short sighted and assimilationist Cruising Utopia seeks to break the present stagnancy by cruising ahead Drawing on the work of Ernst Bloch Jos Esteban Mu oz recalls the queer past for guidance in presaging its future He considers the work of seminal artists and writers such as Andy Warhol LeRoi Jones Frank O Hara Ray Johnson Fred Herko Samuel Delany and Elizabeth Bishop alongside contemporary performance and visual artists like Dynasty Handbag My Barbarian Luke Dowd Tony Just and Kevin McCarty in order to decipher the anticipatory illumination of art and its uncanny ability to open windows to the future In a startling repudiation of what the LGBT movement has held dear Mu oz contends that queerness is instead a futurity bound phenomenon a not yet here that critically engages pragmatic presentism Part manifesto part love letter to the past and the future Cruising Utopia argues that the here and now are not enough and issues an urgent call for the revivification of the queer political imagination **Cruising Utopia** José Esteban Muñoz,2009-11-30

Printbegr nsninger Der kan printes 10 sider ad gangen og max 40 sider pr session **Master Passions** Mihnea Moldoveanu,Nitin Nohria,2002-03-15 An exploration of the powerful role of anxiety ambition and envy in shaping both our

individual lives and society as a whole At the heart of the human experience lies anxiety caused by the realization that the world is unknown forever eluding our control And out of this anxiety arises the master passions of ambition and envy which we repress to mask their power over our lives Discussion of the role of the emotions in our lives is not new but Mihnea Moldoveanu and Nitin Nohria go much further showing how these passions shape not only our individual lives but our social and organizational culture as well The master passions are not pretty and so we cover them with the more socially acceptable faces of reason and morality Moldoveanu and Nohria guide the reader in revealing the real impetus behind such actions as firing a friend leaving a lover or even pillaging your own people Below the rational explanation they show often lies a willingness to hurt or even destroy others to fuel our own ambitions or quench the fires of envy The authors offer intriguing thought experiments and examples from their own lives as they expose the power of the master passions Deftly weaving ideas from psychology Sigmund Freud sociology Max Weber literature William Shakespeare Albert Camus and philosophy David Hume Adam Smith Karl Marx Friedrich Nietzsche with the personal they build a strong argument that society would be much healthier if we faced the deception and self deception that pervade our lives *Toward a Theology of Eros* Virginia Burrus, Catherine Keller, 2009-08-25 What does theology have to say about the place of eroticism in the salvific transformation of men and women even of the cosmos itself How in turn does eros infuse theological practice and transfigure doctrinal tropes Avoiding the well worn path of sexual moralizing while also departing decisively from Anders Nygren s influential insistence that Christian agape must have nothing to do with worldly eros this book explores what is still largely uncharted territory in the realm of theological erotics The ascetic the mystical the seductive the ecstatic these are the places where the divine and the erotic may be seen to converge and love and desire to commingle Inviting and performing a mutual seduction of disciplines the volume brings philosophers historians biblical scholars and theologians into a spirited conversation that traverses the limits of conventional orthodoxies whether doctrinal or disciplinary It seeks new openings for the emergence of desire love and pleasure while challenging common understandings of these terms It engages risk at the point where the hope for salvation paradoxically endangers the safety of subjects in particular of theological subjects by opening them to those transgressions of eros in which boundaries once exceeded become places of emerging possibility The eighteen chapters arranged in thematic clusters move fluidly among and between premodern and postmodern textual traditions from Plato to Emerson Augustine to Kristeva Mechthild to Mattoso the Shulammitte to Molly Bloom the Zohar to the Da Vinci Code In so doing they link the sublime reaches of theory with the gritty realities of politics the boundless transcendence of God with the poignant transience of materiality **Women and AIDS** Ellen Cole, Esther D Rothblum, Linda K Fuller, Nancy Roth, 2014-01-14 For many women the advice Use a condom is not enough to help protect them from HIV infection As *Women and AIDS* reveals negotiating safer sex practices is a very complex issue for women who are involved in relationships where they do not enjoy physical social or economic equality The book s authors maintain that the key to

curbing the spread of HIV and to caring for those already infected is communication. *Women and AIDS* is the first volume to address HIV/AIDS and women from a communication perspective. This helpful guidebook addresses how women might achieve safer sexual and drug injection practices with partners but it also explores women's negotiation of the health care system as patients, medical research subjects, and caregivers. It challenges traditional assumptions about the relationship between care providers and patients and the meaning of patient compliance and raises important questions about gender, race, and class that are exacerbated by the epidemic. Designed to ground interventions in the realities of women's lives, *Women and AIDS* discusses what women can do to get around communication and health care obstacles. To this end, you will learn about using the media for HIV-related social action and to promote women's views of HIV and sexuality, prison health care for HIV-positive women, cultural constructions of sex and drug sharing in a variety of communities, long-term changes that will empower women, delivering an HIV-positive diagnosis to patients, gender roles and caregiving, the language we use to talk about Third World women, and Asian AIDS. *Women and AIDS* discusses women and their communication and awareness from virtually every angle. This book analyzes situations where communication breaks down: from the woman who can't openly discuss safe sex with her partner to the drunk college student who hooks up to the doctor who gives an HIV-positive diagnosis without compassion and offers communication solutions. This will help women avoid such risks, establish communication and safety in their lives, and construct meaningful roles in relationship to HIV/AIDS.

Downcast Eyes

Martin Jay, 1993-10-01. Long considered the noblest of the senses, vision has increasingly come under critical scrutiny by a wide range of thinkers who question its dominance in Western culture. These critics of vision, especially prominent in twentieth-century France, have challenged its allegedly superior capacity to provide access to the world. They have also criticized its supposed complicity with political and social oppression through the promulgation of spectacle and surveillance. Martin Jay turns to this discourse surrounding vision and explores its often contradictory implications in the work of such influential figures as Jean-Paul Sartre, Maurice Merleau-Ponty, Michel Foucault, Jacques Lacan, Louis Althusser, Guy Debord, Luce Irigaray, Emmanuel Levinas, and Jacques Derrida. Jay begins with a discussion of the theory of vision from Plato to Descartes, then considers its role in the French Enlightenment before turning to its status in the culture of modernity. From consideration of French Impressionism to analysis of Georges Bataille and the Surrealists, Roland Barthes's writings on photography, and the film theory of Christian Metz, Jay provides lucid and fair-minded accounts of thinkers and ideas widely known for their difficulty. His book examines the myriad links between the interrogation of vision and the pervasive antihumanist, antimodernist, and counter-enlightenment tenor of much recent French thought. Refusing, however, to defend the dominant visual order, he calls instead for a plurality of scopical regimes. Certain to generate controversy and discussion throughout the humanities and social sciences, *Downcast Eyes* will consolidate Jay's reputation as one of today's premier
