A Reading of Hegel's "Phenomenology of Spirit" Quentin Lauer, 2024-10-22 Available in a new digital edition with reflowable text suitable for e readers The first edition of this title was much acclaimed as the leading interpretation and exposition of Hegel's Phenomenology of Spirit This revision based on continuing research keeps this book in the forefront of Hegelian scholarship The author has made additions and corrections to his reading of this Hegel's most important work and he provides an excellent interpretation of Hegel's language in all of its complexity To scholars it will remain an indispensable study and students new to Hegelian philosophy will find it approachable and clear *Narrative Consciousness* George H. Szanto, 2014-09-10 Comparatively little critical attention has been devoted to narrative technique in modern fiction and formal analysis of the work of Kafka Beckett and Robbe Grillet in particular has for the most part been limited to short studies in journals many of these in languages other than English The criticism written in English has dealt primarily with theme with metaphysics and myth and ignored structure and style Yet it is structure and style that offer the reader a way into the often bewildering and disturbing fictional worlds these three writers present The problem confronting writers since the middle of the nineteenth century has been how to cope artistically with an increasingly alienating and mechanized world As George Szanto sees it Kafka Beckett and Robbe Grillet conclude by the example of their fictions that the writer's province is no longer this impossible environment Instead the writer must work within the only knowledge available to any one person the knowledge attained through perceptions The proper study for a storyteller is thus the search for the unique details the describable perceptions a person chooses from the outside world and brings into their mind which in the end define their nature The shape of the story is determined by the narrating consciousness that single character through whose awareness the details are filtered Thus in a very special sense the tale and the telling are one Szanto's meticulous and thoughtful study of the major fiction of Kafka Beckett and Robbe Grillet searches out these details and examines the manner in which each author through the minds of his characters has selected and ordered them His structural approach not only leads the reader directly into the works under scrutiny but also provides an understanding of the workings of the art itself In the appendices the author surveys the different ways in which criticism has treated these three writers His extensive bibliography provides a valuable research tool **The Dangerous Potential of Reading** Ana-Isabel Aliaga-Buchenau, 2004-03-01 The development of a mass readership a mass market for books and a prominent status of reading and readers is reflected in the central role of literacy reading and books in the lives of protagonists in nineteenth century American and French literature In this book Ana

The Reading of Books Holbrook Jackson, 2001 In the third of his delectable books on books Holbrook Jackson focuses on the relationship between author and reader describing reading as the art of extracting essences from books for our own not the author s benefit Books are to be considered not solely as works of art but as one of the means of the art of living Defining bookmanship as the art of adjusting literature to life Jackson describes reading as a courtship ending in a collaboration Attentive readers enter into a creative process with their books integrating the writer s aesthetic observations and designs into their own experiences Through this exquisite synthesis books give pleasure by deepening and refining readers sensibilities and extending the boundaries of their lives As Jackson says reading is not a duty and if it is not a pleasure it is a waste of time Entertaining as well as instructive his books on books provide inveterate readers with all things needful vindication inspiration cogitation and delectation

Space in America Klaus Benesch, Kerstin Schmidt, 2005 America s sense of space has always been tied to what Hayden White called the narrativization of real events If the awe inspiring manifestations of nature in America Niagara Falls Virginia s Natural Bridge the Grand Canyon etc were often used as a foil for projecting utopian visions and idealizations of the nation s exceptional place among the nations of the world the rapid technological progress and its concomitant appropriation of natural spaces served equally well as David Nye argues to promote the dominant cultural idiom of exploration and conquest From the beginning American attitudes towards space were thus utterly contradictory if not paradoxical a paradox that scholars tried to capture in such hybrid concepts as the middle landscape Leo Marx an engineered New Earth Cecelia Tichi or the technological sublime David Nye Not only was America s concept of space paradoxical it has always also been a contested terrain a site of continuous social and cultural conflict Many foundational issues in American history the dislocation of Native and African Americans the geo political implications of nation building immigration and transmigration the increasing division and clustering of contemporary American society etc involve differing ideals and notions of space Quite literally space and its various ideological appropriations formed the arena where America s search for identity national political cultural has been staged If American democracy as Frederick Jackson Turner claimed is born of free land then its history may well be defined as the history of the fierce struggles to gain and maintain power over both the geographical social and political spaces of America and its concomitant narratives The number and range of topics interests and critical approaches of the essays gathered here open up exciting new avenues of inquiry into the tangled contentious relations of space in

It analyzes the many ways in which the New Testament can be read and interpreted. Rather than prescribing one correct way of reading, this study offers an overview of and introduction to the most influential theories of recent scholarship, discussing the background against which such theories are developed. It shows the advantages of combining methods of reading, thus stimulating an interaction between various approaches illustrated by the individual volumes in the series. This is an important addition to New Testament literature, offering the student of religion a comprehensive overview of the methods and approaches used by scholars in the field. A

New Testament Commentary for English Readers Charles John Ellicott, 1878 **The New Larned History for Ready Reference, Reading and Research** Josephus Nelson Larned, 1923 **New Perspectives on James Weldon Johnson's "The Autobiography of an Ex-Colored Man"** Noelle Morrisette, 2017-07-15 James Weldon Johnson (1871-1938) exemplified the ideal of the American public intellectual as a writer, educator, songwriter, diplomat, key figure of the Harlem Renaissance, and first African American executive of the NAACP. Originally published anonymously in 1912, Johnson's novel *The Autobiography of an Ex-Colored Man* is considered one of the foundational works of twentieth-century African American literature, and its themes and forms have been taken up by other writers from Ralph Ellison to Teju Cole. Johnson's novel provocatively engages with political and cultural strains still prevalent in American discourse today, and it remains in print over a century after its initial publication. *New Perspectives* contains fresh essays that analyze the book's reverberations, the contexts within which it was created, and received the aesthetic and intellectual developments of its author and its continuing influence on American literature and global culture. Contributors: Bruce Barnhart, Lori Brooks, Ben Glaser, Jeff Karem, Daphne Lamothe, Noelle Morrisette, Michael Nowlin, Lawrence J. Oliver, Diana Paulin, Amritjit Singh, Robert B. Stepto. *Reading Sri Aurobindo* Bindu Puri, 2022-08-30 This book presents contemporary perspectives of scholars working on different aspects of the philosophy of Sri Aurobindo: the idea of evolution, integral yoga, the transformation of the individual, society, and earth; theories of nation and human unity; philosophy of emotions and ethics of the environment. Contributors examine Sri Aurobindo's philosophy, its close conceptual relationship to classical Indian philosophy, and its relevance. It sheds light on how his philosophy deals with the twenty-first century's fundamental problems and offers possible solutions. The book brings out the modern debate in Western philosophy involving thinkers like Michel Foucault, Jacques Derrida, and Gilles Deleuze and their predecessors such as Martin Heidegger and Friedrich Nietzsche. This book is an exercise in comparative philosophy, one that unpacks the mind of Sri Aurobindo in the context of Indian, European, and Anglo-American philosophical discourse. It is of great relevance for a new generation of students, scholars of Indian philosophy, politics, religious studies, and those interested in knowing the thought and practice of the twentieth-century Indian thinker and yogi Sri Aurobindo. **Creative Reading**
