Tocqueville Past Masters:

Weber, Habermas and Transformations of the European State John P. McCormick, 2007-04-16 This book critically engages Jürgen Habermas's comprehensive vision of constitutional democracy in the European Union. John P. McCormick draws on the writings of Max Weber and Habermas's own critique of them to confront the difficulty of theorizing progressive politics during moments of radical state transformation. Both theorists employ normative and empirical categories drawn from earlier historical epochs to analyze contemporary structural transformations. Weber evaluated the emergence of the Sozialstaat with antedated categories derived from nineteenth century and premodern historical examples while Habermas understands the EU almost exclusively in terms of the liberal Rechtsstaat and welfare state Sozialstaat paradigms. Largely forsaking the focus on structural transformation that characterized his early work, Habermas conceptualizes the EU as a territorially expanded nation state. McCormick demonstrates the deficiencies of such an approach and outlines a more appropriate normative empirical model: the supranational Sektoralstaat for evaluating prospects for constitutional and social democracy in the EU.

Tocqueville's Virus, *Tocqueville's Discovery of America* Leo Damrosch, 2010-04-07 Alexis de Tocqueville is more quoted than read; commentators across the political spectrum invoke him as an oracle who defined America and its democracy for all times. But in fact his masterpiece *Democracy in America* was the product of a young man's open-minded experience of America at a time of rapid change. In *Tocqueville's Discovery of America*, the prizewinning biographer Leo Damrosch retraces Tocqueville's nine-month journey through the young nation in 1831-1832, illuminating how his enduring ideas were born of imaginative interchange with America and Americans and painting a vivid picture of Jacksonian America. Damrosch shows that Tocqueville found much to admire in the dynamism of American society and in its egalitarian ideals. But he was offended by the ethos of grasping materialism and was convinced that the institution of slavery was bound to give rise to a tragic civil war. Drawing on documents and letters that have never before appeared in English as well as on a wide range of scholarship, *Tocqueville's Discovery of America* brings the man, his ideas, and his world to startling life.

Politocracy Koos Malan, 2012 *Politocracy*: An assessment of the coercive logic of the territorial state and ideas around a response to it by Koos Malan. Translated by Johan Scott. 2012. ISBN 978 1 920538 10 1. Pages xii + 356. Print version Available. Electronic version Free PDF available.

Tocqueville Larry Siedentop, 1994 L. M. Siedentop's short introduction to Tocqueville's life, work, and contribution to modern political theory demonstrates lucidly both the force and the subtleties of Tocqueville's ideas and their importance for societies now embracing modern democracy.

Agrarian Elites Enrico Dal Lago, 2005-11-01 Between 1815 and 1861 American slaveholders and southern Italian landowners presided over the economic and social life of two predominantly agricultural regions: the U.S. South and Italy's Mezzogiorno. Enrico Dal Lago ingeniously compares these agrarian elites, demonstrating how the study of each enhances our understanding of the other as well as of their shared nineteenth-century world. *Agrarian Elites* charts the parallel developments of plantations and latifondi.

in relation to changes in the world economy At the same time it examines the spread of paternalistic models of family relations and of slave and free labor management that accompanied the rise of large groups of American slaveholders and southern Italian landed proprietors in the early to mid 1800s According to Dal Lago the most articulate and enlightened members of both elites combined the pursuit of profit with the implementation of modern contractual practices in dealing with their workforces Both elites also used their economic and social power for political advantage opposing the intervention of their national governments in local affairs The search for ever better protection of their respective interests in slaveholding and landed property led ultimately to their support for the creation of two nations the Confederate States of America and the Kingdom of Italy both in 1861 Dal Lago brings together two subjects that have generated considerable debate and research systems of slave and nominally free labor and the elites who employed them and nineteenth century nationalism With its pathbreaking approach and singular and comparative insights Agrarian Elites will inform not only American and Italian studies but also the very practice of comparative history

The Making of Tocqueville's America Kevin Butterfield, 2024-05-31 Alexis de Tocqueville was among the first to draw attention to Americans propensity to form voluntary associations and to join them with a fervor and frequency unmatched anywhere in the world For nearly two centuries we have sought to understand how and why early nineteenth century Americans were in Tocqueville's words forever forming associations In *The Making of Tocqueville's America* Kevin Butterfield argues that to understand this we need to first ask what did membership really mean to the growing number of affiliated Americans Butterfield explains that the first generations of American citizens found in the concept of membership in churches fraternities reform societies labor unions and private business corporations a mechanism to balance the tension between collective action and personal autonomy something they accomplished by emphasizing law and procedural fairness As this post Revolutionary procedural culture developed so too did the legal substructure of American civil society Tocqueville then was wrong to see associations as the training ground for democracy where people learned to honor one another's voices and perspectives Rather they were the training ground for something no less valuable to the success of the American democratic experiment increasingly formal and legalistic relations among people

Tocqueville's Political Economy Richard Swedberg, 2018-02-27 Alexis de Tocqueville 1805-59 has long been recognized as a major political and social thinker as well as historian but his writings also contain a wealth of little known insights into economic life and its connection to the rest of society In *Tocqueville's Political Economy* Richard Swedberg shows that Tocqueville had a highly original and suggestive approach to economics one that still has much to teach us today Through careful readings of Tocqueville's two major books and many of his other writings Swedberg lays bare Tocqueville's ingenious way of thinking about major economic phenomena At the center of *Democracy in America* Tocqueville produced a magnificent analysis of the emerging entrepreneurial economy that he found during his 1831-32 visit to the United States More than two decades later in *The Old Regime and the Revolution* Tocqueville made the

complementary argument that it was France's blocked economy and society that led to the Revolution of 1789. In between the publication of these great works, Tocqueville also produced many lesser-known writings on such topics as property, consumption, and moral factors in economic life. When examined together, Swedberg argues, these books and other writings constitute an interesting alternative model of economic thinking as well as a major contribution to political economy that deserves a place in contemporary discussions about the social effects of economics ... *Commencement* University of Tennessee (Knoxville campus), 1929 Tocqueville's Dilemmas, and Ours Ewa Atanassow, 2022-10-18 How Tocqueville's ideas can help us build resilient liberal democracies in a divided world How can today's liberal democracies withstand the illiberal wave sweeping the globe What can revive our waning faith in constitutional democracy Tocqueville's Dilemmas and Ours argues that Alexis de Tocqueville, one of democracy's greatest champions and most incisive critics, can guide us forward Drawing on Tocqueville's major works and lesser-known policy writings, Ewa Atanassow shines a bright light on the foundations of liberal democracy She argues that its prospects depend on how we tackle three dilemmas that were as urgent in Tocqueville's day as they are in ours: how to institutionalize popular sovereignty, how to define nationhood, and how to grasp the possibility and limits of global governance These are pivotal but often neglected dimensions of Tocqueville's work, and this fresh look at his writings provides a powerful framework for addressing the tensions between liberalism and democracy in the twenty-first century Recovering a richer liberalism capable of weathering today's political storms, Tocqueville's Dilemmas and Ours explains how we can reclaim nationalism as a liberal force and reimagine sovereignty in a global age and do so with one of democracy's most discerning thinkers as our guide *Classified Catalogue of the Public Library, of Fitchburg Mass* Fitchburg (Mass.). Public Library, 1886 Reader's Guide to American History Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students, teachers, scholars, and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political, social, and economic history describes and evaluates some 6 to 12 books on the topic, providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors, all scholars of American history *Pastmasters*, 1969

General Education in the Social Sciences John J. MacAloon, 1992-06 Higher education's most vibrant and contentious issues: common and specialized learning in the curriculum; conceptions of general and liberal education; the design of common core sequences; the merits of classic texts and contemporary research; Western and non-Western course materials; the place of undergraduate teaching in scholarly careers have for decades been debated by the faculty of the College of the University of Chicago. At the College, they have become embodied in educational programs of sufficient historical depth to reveal patterns

of intellectual and pedagogical continuity amidst changing social and institutional circumstances Social Science 2 holds the place of honor among these educational projects For more than half a century Soc 2 has been one of the most influential courses in American undergraduate education This unique year long course the oldest and most distinguished of its kind at any American university has served as an ongoing experiment in how the social sciences can be taught and learned in the general education context In this collection John MacAloon has gathered essays by fourteen eminent social scientists such as David Riesman Michael Schudson and F Champion Ward who as either teachers or students were profoundly shaped by Soc 2 Their multifarious and selective memories full of dissonances and harmonies of recollection judgment and voice create a compelling biography of a course and a college that have survived tumultuous change through sustained and committed argument This book will be of great interest to anyone interested not only in the theory but the practice of higher education

Tocqueville's Road Map Roger Boesche, 2007-12-01 One of the country's foremost Tocqueville scholars Roger Boesche has gathered together his writings on Tocqueville from the last quarter century These essays focus on specific aspects of Tocqueville's political thought the methodology that Tocqueville brought to his historical and political writings allowing him to predict so well his assumptions about what constitutes a revolution his conviction that democracy and commerce at times work against each other why Tocqueville's thought defies our modern political classifications his fear of a qualitatively new kind of despotism and Tocqueville's predictions for the future compared to those of Nietzsche Arendt and others Tocqueville's Road Map is a long overdue addition to Tocqueville scholarship that will find an audience amongst scholars of political thought and history

The American Vision of Robert Penn Warren William Bedford Clark, 2021-12-14 In 1976 the bicentennial year Robert Penn Warren told Bill Moyers that he was in love with America but his love for the nation was more often than not troubled and angry Warren once remarked that any intelligent person is inclined to criticize his country more strongly than he will criticize anything else And he should It's a way of criticizing himself too Trying to live more intelligently and more fully In The American Vision of Robert Penn Warren a noted Warren scholar traces the evolution of our first poet laureate's distinctive stance toward the American experiment in democracy showing how Warren sought to balance off the claims of self and society in the New World This book surveys the full six decades of Warren's career combining close reading with a historian's eye for social and political context While pointedly avoiding the reductive pitfalls of the new historicism Clark documents the informing role the Great Depression played in shaping Warren's attitudes toward art and politics and he demonstrates the necessity of regarding Warren's major achievements in fiction and verse as forms of public speech Read in this light Warren's vision offers a set of possibilities for renegotiating America's covenant with its Founders on new and pragmatic terms Based solidly on the best previous commentary on Warren and his work Clark's study represents a new approach to its subject and incorporates insights and information garnered from the Warren Papers at Yale A wide ranging account of the interplay between an author's imagination and contemporary history this book should prove of interest to all

students of American culture especially those concerned with the interrelationships of literature politics and ideology Written in a lively and direct style it will appeal to specialists and general readers alike

The Slave Master of Trinidad Selwyn R.

Cudjoe,2019-08-30 William Hardin Burnley 1780 1850 was the largest slave owner in Trinidad during the nineteenth century Born in the United States to English parents he settled on the island in 1802 and became one of its most influential citizens and a prominent agent of the British Empire A central figure among elite and moneyed transnational slave owners Burnley moved easily through the Atlantic world of the Caribbean the United States Great Britain and Europe and counted among his friends Alexis de Tocqueville British politician Joseph Hume and prime minister William Gladstone In this first full length biography of Burnley Selwyn R Cudjoe chronicles the life of Trinidad s founding father and sketches the social and cultural milieu in which he lived Reexamining the decades of transition from slavery to freedom through the lens of Burnley s life The Slave Master of Trinidad demonstrates that the legacies of slavery persisted in the new post emancipation society

Catalogue of the Public Library of Cincinnati Anonymous,2022-12-06 Reprint of the original first published in 1871

Tocqueville's Moderate Penal Reform Emily Katherine Ferkaluk,2018-04-10 This book presents an interpretive analysis of the major themes and purpose of Alexis de Tocqueville s and Gustave de Beaumont s first work On the Penitentiary System thereby offering new insights into Tocqueville as a moderate liberal statesman The book explores Tocqueville s thinking on penitentiaries as the best possible solution to recidivism his approach to colonial imperialism and his arguments on moral reformation of prisoners through a close reading of Tocqueville s first published text The unifying political concept of all three discussions is Tocqueville s underlying concern to pursue moderation between institutional and imaginative extremes in order to maintain liberal values In both thinking moderately and advocating for moderate political action Tocqueville s On the Penitentiary System renews an emphasis on the importance of civic engagement and the balance between philosophy and praxis

Tocqueville Past Masters Book Review: Unveiling the Magic of Language
