That s where him am He be lookin at pictures on the walls Oh that s all right then Just keep him there And Koku don t let him come back in the shop here until I get ready to see him I ll ring the bell when I am All right Mr Tom Koku very proud of his mission of keeping guard over the strange visitor marched from the room with his big strides his long arms and powerful hands swinging at his sides for Koku or August as Tom had rechristened him and as he often called him for it was in the month of August that he had located the giants was a very powerful man A veritable giant being extremely tall and big in proportion Be sure Don t let him in here Koku called Tom in an additional warning as his new servant left the main shop Sure not exclaimed Koku very earnestly I don t know who he may be mused Tom as he began putting away the parts to his new noiseless motor so that the stranger could not see them and profit thereby It looks rather funny not sending in his name It may be some one who thinks he can spring a trick on me and get some points about my inventions or dad s It may even be somebody sent on by Andy Foger or his father I can t be too careful I ll just put everything away that isn t fully covered by patents and then if he wants to infringe on any of the machines I can sue him Tom looked about the shop which was filled with strange machinery most of which had been made by himself or his father or under their combined directions There was a big biplane in one corner a small monoplane in another parts of a submarine boat hanging up overhead and a small but very powerful electric auto waiting to have some repairs made to it for on his last trip in it Tom Swift had suffered a slight accident
