The beauty of mathematics eludes all but a small select handful of people This monumental classic will illuminate the aesthetic delights of mathematics for all to behold Why should only a tiny aristocracy hold the key to appreciating the elegance of mathematics Why should intelligent cultured people who can easily articulate the brilliance of Shakespeare's imagery quake at the prospect of deciphering a simple algebraic formula Jerry King a mathematics professor and a poet razes the barriers between a world of two cultures and hands us the tools for appreciating the art and treasures of this elegant discipline In his fluid poetic voice he initiates us into the splendid wonders of the Mathworld He provides us with an original framework for contemplating mathematics as art He deepens our ultimate comprehension of art by comparing the beauty of a Rembrandt as well as a Jackson Pollock with the riches to be mined in an elegant proof Like the great philosophers of the past Dr King searches for pure Truth a quest possible today only in the realm of mathematics With his infectious enthusiasm he explains with utmost clarity the intellectually stimulating underpinnings of both pure and applied mathematics He goes on to decry how our educational system has failed by perfunctorily teaching us mathematics depriving us of the pillars of beauty upon which mathematics rests Never before has a book spoken so eloquently to our soul in instilling an appreciation for the grandeur of mathematics Through Dr King the muses of mathematics will no longer sing for others and not for us The elegant world of mathematics awaits us all to savor *Franklin Merrell-Wolff: an American*
