UDL: Transforming Higher Education through Universal Design for Learning. An International Perspective examines and shares best practice in UDL implementation worldwide to provide strategies for strengthening student accessibility, engagement and learning outcomes through the development of flexible learning environments. Drawing upon insightful research-based contributions from educators and student service specialists in Australia, Belgium, Brazil, Canada, Ireland, Israel, Norway, South Africa, Spain, the UK and all across the USA, this book considers diversity in the form of disability, minority ethnic groups, gender identities, first-generation university students and varying socio-economic backgrounds. It brings together key thinkers and actors in the field of UDL and expertly maps its practices to the higher educational domain. It explores the multiple means of representation, expression and engagement that combine to create a successful UDL framework. Each chapter not only provides a different perspective of how UDL has helped meet the needs of all students to ensure that education is accessible, culturally responsive and socially just, but also considers how this can then be implemented into higher education environments the world over.
