To The Table A Spirituality Of Food Farming And Community:

To the Table Lisa Graham McMinn, 2015-12-29 With the growing farm to table movement and popularity of local farmers markets we are becoming more conscious of where our food originates This spirituality of eating and food helps us reflect on current realities and understand how eating forms our souls inwardly upwardly and outwardly The author offers practical guidance on what it means to eat alone or in community with more intention compassion humility and gratitude She also tells the story of food as it transitions from seed to table Sidebars contain gardening and food tips recipes and food preservation guides End of chapter questions for individual and group use are included The Meal That Reconnects Mary E.

McGann, 2020-03-03 2021 Catholic Media Association Award first place award in Catholic Social Teaching In The Meal That Reconnects Dr Mary McGann RSCJ invites readers to a more profound appreciation of the sacredness of eating the planetary interdependence that food and the sharing of food entails and the destructiveness of the industrial food system that is supplying food to tables globally She presents the food crisis as a spiritual crisis a call to rediscover the theological ecological and spiritual significance of eating and to probe its challenge to Christian eucharistic practice Drawing on the origins of Eucharist in Jesus's meal fellowship and the worship of early Christians McGann invites communities to reclaim the foundational meal character of eucharistic celebration while offering pertinent strategies for this renewal

McMinn, 2017-08-22 The church and science have drifted apart

over the past century Today the church is often deemed irrelevant by those who trust science and science is often deemed irrelevant by those whose primary loyalties are to the church However this book shows that the new science of virtue the field of positive psychology can serve as a bridge point between science and the church and can help renew meaningful conversation In essence positive psychology examines how ordinary people can become happier and more fulfilled Mark McMinn clarifies how positive psychology can complement Christian faith and promote happiness and personal flourishing In addition he shows how the church can help strengthen positive psychology McMinn brings the church's experience and wisdom on six virtues humility forgiveness gratitude grace hope and wisdom into conversation with intriguing scientific findings from positive psychology Each chapter includes a section addressing Christian counselors who seek to promote happiness and fulfillment in others **Stewarding Our Bodies** Perry L. Glanzer, Austin T. Smith, 2023-06-05 Most college

students struggle tremendously with their bodies Numerous issues related to the body plague higher education Students struggle with sleep mental health eating disorders sexual identity questions clothing choices obesity and alcohol problems

among other concerns Too often Christian colleges try to meet these challenges with rules instead of setting forth a vision of what it means to steward the body a precious gift from God that has been bought with a price by Christ Students faculty and staff at faith based institutions need a theological framework and biblical wisdom by which they can better understand nurture and celebrate life in all its fullness Stewarding Our Bodies draws from the expertise and experiences of researchers and practitioners both within and outside higher education to provide relevant insights and suggestions for those who desire to help students better bear God s image Most important of all it sets forth a positive vision by which to understand the precious gift God has entrusted to us our bodies

The Five Blessings of Ifá Gabrielle Felder, 2025-10-28. A fierce and inspirational guide to Black resistance, resilience and healing using the principles of Afro Indigenous spiritual practices. Understanding where you came from is crucial to understand where you are going. The Five Blessings of If explores how Black communities across the diaspora draw strength from ancestral wisdom, family, community care and mutual aid using the principles of If, a West African spiritual tradition as a guiding framework. Gabrielle Felder provides a blueprint for living a more fulfilled and abundant life through the blessings of Aiku (longevity), Aje (wealth), Aya and Oko (relationships), Omo (children) and Isegun (victory over negative forces), providing practical examples of how Black folks have built resilience and learned to thrive in the face of oppression. Longevity exists in ancestral traditions that we cultivate over generations, which Felder explores through practices of traditional herbalism as well as contemporary sustainability and food sovereignty movements. Wealth, in Felder's interpretation, has to do with the richness created by community, including cultural traditions of food, dance and music that connect seemingly disparate African diasporic cultures. Partnership, traditionally understood in If as husband and wife, is reconsidered by Felder to include a wide variety of relationship structures, including familial bonds and queer families. To explore the blessing of children, Felder dives into the important history of doulas and midwives in Black communities and their crucial role in combatting the high maternal mortality rate among Black women in the US. Finally, Felder draws out the meanings of the blessing of victory through a wide range of examples of Black autonomy, slave rebellions, the rejection of Eurocentric beauty standards, mutual aid practices among Black revolutionary groups and the contemporary Black witch movement. As a collective, Black folks have managed to usher in the five blessings of If into our lives despite all odds. This book is a love letter to those who have come before us and a guide to the possibilities that lie in our collective future.
