Netliving 101 John Durkin, 2000-09-20 It is not what you know but who you know that counts This old cliché is as true today as it was when it was first uttered According to a recent survey conducted by Drake Beam Morin Inc a large outplacement organization networking fills 70 percent of professional positions Networking for a job is the best way to tap into the unpublished job market NETLIVING 101 Networking Life's Journey reaches beyond the job market into all aspects of life from the womb to the tomb Hence the word networking is replaced by my newly coined word netliving There is currently no book as indicated by reviewing Books in Print that shows people how to take advantage of networking techniques used in job hunting to enhance other facets of their lives NETLIVING 101 Networking Life's Journey fills that gap by providing all the tools and information readers need to establish networks and have more enjoyable and successful lives One of the reasons for choosing the title NETLIVING 101 Networking Life's Journey was because to the best of my knowledge no college or university offers a course as part of a curriculum on the subject In earlier simpler times when most of the world's population lived in small villages where everyone knew their neighbor there was no need to build networks for they were already in place The local church or pub was usually the hub of the network With the complexity of today's society it has become necessary to make a concerted effort to establish support networks in order to be successful and happy In this self help book ideas examples and suggestions for netliving are developed through short vignettes based on the lives of real people Names and places will be changed to protect the innocent

NETLIVING 101 Networking Life's Journey is written using the concept known as fiction. Essentially fiction refers to the inclusion of certain details which although they may not have occurred exactly as described in point of fact give the reader a clear image of the scene in his or her imagination. Rather than telling the reader what netliving is all about, this book demonstrates through the words and actions of the characters. Chapter One introduces the two key characters that appear throughout the book, Roberta and Richard, and are used alternately from chapter to chapter to provide different perspectives. The fabric of friendships is woven through the stages of life and applied to various life experiences from overcoming the fear of public speaking to preparing for retirement. Netliving 101 Networking Life's Journey is designed for individuals who are career oriented, sophisticated and thoughtful. Most people are concerned about their future and are taking steps to afford themselves successful, happy and prosperous mature years.

I Found Mine Mohammed R. Zawad, 2017-05-11. One man's journey towards finding his passion. As most people who finally took the plunge can relate, sooner or later you have to stand on the ledge that separates danger and opportunity from security and stagnation. It then becomes a question of what direction to jump. In I Found Mine, Mohammed Zawad shares with us the stories that made him jump. Perhaps the most striking thing about this book is Mohammed's talent for incorporating his life experiences and lessons into helping readers to understand his message. All the stories are personal and relatable regardless of the reader's background. What's noteworthy is how he gives you a glimpse of his personal life, the good, the bad, and the ups and downs. His candour about his successes and failures make the book a fabulous read. Mohammed Zawad possesses an amazing ability to inspire, encourage and motivate people to seek out and follow their dreams. I Found Mine is for everyone, whether it's someone who wishes to learn a new skill, wants to go back to school or is looking for an entirely new career but is not sure where to start.

USAF Instructor's Journal United States. Air Force. Air Training Command, 1965. *USAF Instructors Journal*, 1963. **Meeting Game** Mohan Karambelkar, 2013-12. Meetings take a significant part of communication in business. It can make or break the business. Yet executives and professionals assume that they have the skills or they can learn through experience. However, many of them experience aimless time consuming meetings draining the productivity. This book with extensive research provides the solution. This book considers meeting as a process and recommends achievement of effective, efficient and energetic meetings through system, strategy and synergy. It blends conventional productivity tools with Neuro Linguistic Programming (NLP). NLP teaches how to use the language of the mind to consistently achieve specific and desired results. It means a study of excellence. NLP gives tools for communication, rapport, outcome definition and many more. Using simple language and not requiring any prerequisite in NLP, this book is a practical guide of how we can use NLP in day to day life through meetings. This book derives analogy with sport effectiveness of an archer to aim at a good decision, efficiency of a sprinter to achieve maximum out of time and energy of a weightlifter to lift action items to the level of achievement. Armed with this book, you can achieve effectiveness, efficiency and energy in meetings.
