the path to the South Pole over 100 years ago and became a dominant figure in Antarctic discovery. A charismatic personality, his incredible adventures on four expeditions have captivated generations and inspired a dynamic modern following in business leadership. None more so than the Endurance mission where Shackleton's commanding presence saved the lives of his crew when their ship was crushed by ice and they were turned out on to the savage frozen landscape. But Shackleton was a flawed character whose chaotic private life marked by romantic affairs, unfulfilled ambitions, overwhelming debts, and failed business ventures contrasted with his celebrity status as a leading explorer. Drawing on extensive research of original diaries and personal correspondence, Michael Smith's definitive biography brings a fresh perspective to our understanding of this complex man and the heroic age of polar exploration.

Excerpt: Sir Ernest Henry Shackleton CVO OBE 15 February 1874 – 5 January 1922 was an Anglo-Irish explorer who was one of the principal figures of the period known as the Heroic Age of Antarctic Exploration. His first experience of the polar regions was as third officer on Captain Robert Falcon Scott's Discovery Expedition 1901–04 from which he was sent home early on health grounds. Determined to make amends for this perceived personal failure, he returned to Antarctica in 1907 as leader of the Nimrod Expedition. In January 1909 he and three companions made a southern march which established a record farthest south latitude at 88°23' S (97 geographical miles (114 statute miles) (190 km) from the South Pole, by far the closest convergence in exploration history up to that time. For this achievement, Shackleton was knighted by King Edward VII on his return home. After the race to the South Pole ended in 1912 with Roald Amundsen's conquest, Shackleton turned his attention to what he said was the one remaining great object of Antarctic journeying: the crossing of the continent from sea to sea via the pole. To this end, he made preparations for what became the Imperial Trans-Antarctic Expedition 1914–17. Disaster struck this expedition when its ship, *Endurance*, was trapped in pack ice and slowly crushed before the shore parties could be landed. There followed a sequence of exploits and an ultimate escape with no lives lost.
