Britain especially Greater London suffered heavily under a barrage of day and nighttime raids by the then mighty Luftwaffe raids which killed some 20 000 people and destroyed or damaged one million homes during what came to be known as the London Blitz A baby blitz followed from January to May 1944 which was destined to be the final manned bomber offensive by a much depleted Luftwaffe Afterwards there came the last gasp the final blitz on London this time delivered by the V1 flying bombs and V2 rockets which were aimed at the capital Overall the V weapons killed or seriously injured 31 000 in London and destroyed or seriously damaged 1 6 million houses throughout Britain Yet despite all this British industry economy and morale remained largely intact Group Captain Nigel Walpole grew up in London during the Blitz and he has traced the full history of the V1 doodlebugs and V2 rockets that terrorized so many at this time He looks at the infamous missile development site at Peenemunde and the engineers who brought Hitler s horrific visions to life He reports his vivid memories of the three Blitz campaigns and the countermeasures taken in response to them Having been granted direct access to the history of the V weapons he describes the evolution development production deployment and launch of the flying bombs and rockets Whilst acknowledging the terrible damage inflicted by these weapons Nigel also recognizes them as an example of Germanys extraordinary capacity for innovation and determination during one of the darkest periods of world history
