Afterlife Knowledge Guidebook Bruce Moen, 2005-05-20 A handbook of astral projection with tools and practices to explore eternity by communicating with those who have died Where will you go when you die What if someone offered you a safe reliable method for exploring for the truth about the afterlife on your own The Afterlife Knowledge Guidebook is just such an opportunity Bruce Moen is a seasoned afterlife explorer He insists that despite our beliefs to the contrary discovering the truth about our afterlife through communication with the deceased is really quite easy Trained as an engineer Moen has created a systematic yet simple set of concepts techniques and exercises that people around the world have successfully used to gather their own firsthand evidence about the afterlife through contact and communication with the deceased Moen's system follows this basic premise If you can find a way to communicate with a person known to be deceased and gather information from this person that you can have no way of knowing except by this contact and if this information can be verified to be true accurate and real then you have gathered evidence that this person continues to exist beyond death If you continue gathering such evidence the weight of it will lead you to the truth You no longer need to take anyone else's word for the truth about our afterlife The Afterlife Knowledge

Searching for Eternity Donald R. Morse, 2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our behavior in day to day life really influence what happens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse's subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this conclusion Near death and out of body experiences experiments creating apparitions research attempting to weight the soul and the wide range of ancient and modern spiritual concepts are all covered in this masterful comprehensive scientific quest for truth back cover

Muddy Tracks Frank DeMarco, 2025-09-12 One of the precious gifts of my father's legacy was his insistence that people can turn beliefs into knowns finding out for themselves through direct experience that they are indeed more than their physical bodies In that spirit this book is a fine example of another explorer's journey into profound self discovery and particularly to the realization that love is the only thing in life that counts Laurie A Monroe President The Monroe Institute This book was written specifically for those people for whom the question of what is real is the most important thing in life It is for those who have a hard time concentrating on career or family or anything for fear it will turn out to be illusory It is for anyone whose life is haunted by lack of meaning The entire point of Muddy Tracks is that the author went out searching He trusted and sincerely looked and found that his trust was rewarded And he says as his trust was rewarded so will yours be Muddy Tracks tells some of the things that happened to him and at every step he says to you Here's a resource try this Here's a resource try that When I did this this happened When I did that that happened Keeping strictly to what he has experienced DeMarco shows

how many aids we may find in life He shows how his life was enriched by selected reading and by dream analysis and by interaction with friends and so called strangers He describes some of the unusual resources he has discovered and used particularly in connection with out of body explorer Bob Monroe and The Monroe Institute More intimately he tells of some of the nearly unbelievable things he has learned to do things he points out that are natural human abilities available to all As noted British author Colin Wilson says in his introduction Frank s experience has been in many ways remarkable and he has a natural gift for making it come alive The net result is to provide the reader with firsthand informed reassurance that we all have our own internal guidance which is reliable and is willing and able to come forth when welcomed DeMarco cites his own experiences to argue that if you come to the quest in faith the faith will be rewarded The meaning of your life can be found but it can only be found by you yourself And having found it you will find it meaningful precisely because it will be your meaning and not someone else s The age of gurus is over It is time for us each to come into our own Muddy Tracks will help you and encourage you to learn to do that *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004 **Voyages**
