attractive in its languid way and certainly the man was a profound thinker Vril is a mysterious energy used by Lytton's subterranean race refugees from the deluge that submerged Atlantis to power their advanced civilization Generations of occultists have mistaken this bit of business for something other than fiction and still more generations of science fiction writers have recycled the novel's plot Vril is a book of strong interest to anyone doing a scholarly study of the evolution of SF it's also a novel well worth reading in its own right Jacketless library hardcover **The Coming Race.
