A Life in Short Stories Skip Johnson, 2024-12-20 This little book is a series of personal vignettes by award winning author journalist Skip Johnson that are just plain down fun to read like how his fiancée introduced him to her best friend whom a year later he married or how he joined a venerable local charity s board and two months later found himself president and only member of the board a board that was 50 000 in debt with no idea how to pay it and it was up to him and him alone to fix things or how he very accidentally single handedly captured an armed and dangerous bank robber or how some very bad decisions early in his life led him into a thirty year career as a newspaper reporter columnist and editor Some of these stories are light some are serious some are tear jerkers some are important and

some are just intriguing Some deal with events related to his life as a journalist and others with family and other facets of life But all of them you will agree are readable But once you read them beware They very well may make you want to write your own book of personal vignettes and you probably should Don t you wish your grandparents had *My True Life Story* Mazell Shepherd Miley,2021-06-16 This is my story is about growing up in the Appalachian Mountains I was going to school at Burea College when my dad died I wanted to make a better life for my mother she had worked hard to raise eleven of us and cared for my dad I loved my dad but did not like the bottle of moonshine his buddies would slip to him Renting a truck and brought my family to Mansfield My mother was happy here so was my brothers and sisters Mazell Shepherd Miley *A life-long story: or, Am I my sister's keeper? Facts and phases for the times, dedicated to the women of England* One of themselves (pseud.),1859 **The North Carolina Historical Review** ,2014 **Amazing Stories** ,1926 **My Life Story** Nelson Wood,2015-10-16 The book is mostly a biography It is written in three sections my early years my education and working years World War II and memories I also added two addendums which brings me up to my retirement and present life in an assister living facility in Florida *One Man's Walk Through Life* Fred Bull,2007-08-20 This moving memoir recounts the story of a life well lived With a positive attitude and an optimistic view Fred Bull tells of his difficult upbringing in the Appalachian Mountains of Tennessee After running away from home at the age of sixteen he enlisted in the U S Army He and his friends enjoyed traveling to different continents serving their country in uniform in Korea and constantly trying to adhere to their upbringing Along the way he became a husband and father a musician and entertainer and a cancer survivor Honest and heartwarming *One Man's Walk through Life* highlights some of the foundations of American society through the eyes of a hardworking man **The First Men in the Moon** H. G. Wells,2013-11-25 This is the annotated edition including the rare biographical essay by Edwin E Slosson called H G Wells A Major Prophet Of His Time The book is also fully illustrated with a wealth of beautiful drawings There is probably no other living writer than the author of *The War of the Worlds* whose brain possesses that abnormal twist requisite to the production of such a story as *The First Men In the Moon* The conception of a planet peopled by a race of articulated creatures gigantic insects endowed with something akin to human intelligence whose entire life is passed not upon the moon's surface but miles below it In chambers and passages hollowed out after the fashion of a colossal ant hill all this described with that touch of verisimilitude which is the one thing which makes H G Wells readable gives an uncanny at times almost ghastly effect that makes this moon story the most weird and striking of anything that he has written since the days of *The Time Machine* He takes us on endless rambles through these vast lunar caverns lit only by the pallid rays that come from streams of liquid blue fire and shows us a world in which the forests are colossal growths of pink and blue and green mushrooms and the commonest utensils of everyday life are made of solid gold It is a curious whimsical book and as usual Mr Wells has been doubly fortunate in having a sympathetic illustrator Mr Shepperson's pictorial interpretations of the text are thoroughly in keeping with the whole spirit of the thing and make the various phases

of this imaginary moon life sufficiently vivid to haunt one with the persistence of a nightmare
