Vasantha Kandasamy,Florentin Smarandache,2006-12 The Vedas are considered divine in origin and are assumed to be revelations from God In traditional Hinduism the Vedas were to be learnt only by the upper caste Hindus The lower castes Sudras and so called untouchables who were outside the Hindu social order were forbidden from even hearing to its recitation In recent years there have been claims that the Vedas contain the cure to AIDS and the production of electricity Here the authors probe into Vedic Mathematics that gained renown during the revivalist Hindutva rule in India and was introduced into school syllabus in several states and explore if it is really Vedic in origin or Mathematics in content To gain a better understanding of its imposition we interviewed students teachers parents educationists and activists We analyze this

problem using models like Fuzzy Cognitive Maps FCM Fuzzy Relational Maps FRM and newly constructed Fuzzy Dynamical System and their Neutrosophic Analogues The issue of imposition of Vedic Mathematics into the school curriculum involves religious politics caste supremacy apart from elementary arithmetic so we use fuzzy and neutrosophic techniques to gain acute insight into how students have been affected because of this politically motivated syllabus revision
