Post-Western Sociology - From China to Europe Laurence Roulleau-Berger, Li Peilin, 2018-05-15 This book is rooted in an epistemological approach to sociology in which the boundaries between Western and non Western sociologies are acknowledged and built on It argues that knowledge is organised in conceptual spaces linked to paradigms and programmes which in turn are linked to ethnocentred knowledge processes that until recently Western approaches including Post Colonial French Social Science and American approaches have dominated non Western theories and that Western theories have sometimes seemed incapable of explaining phenomena produced in other societies It goes on to argue that the blurring of boundaries between Western and non Western sociologies is very important and that such a Post Western approach will mean co production and co construction of common knowledge the recognition of ignored or forgotten scientific cultures and a global change in sociology which imposes theoretical and methodological detours displacements reversals and conversions The book brings together a wide range of Western and Chinese sociologists who explore the consequences of this new approach in relation to many different issues and aspects of sociology Bibliographic Guide to Black Studies Schomburg Center for Research in Black Culture, 1994 *Index Veterinarius* ,2004
