Greg Miller, Anne-Marie Miller-Blaise

Through The Year With St Francis De Sales 2014:

Nineteenth-Century Salesian Pentecost, The Boenzi, Joseph, SDB, Chorpenning, Joseph F., OSFS, Toczyski, Suzanne C., Wright, Wendy M., 2022 In the wake of the French Revolution and other upheavals Don Bosco 1815 1888 and other nineteenth century founders and spiritual leaders contributed to the development of spiritual practices and perspectives on the Christian life that have been described as the Salesian Pentecost Here are translations of and commentaries on the little known spiritual writings of Don Bosco his collaborators and his contemporaries involved in the Salesian Pentecost These diverse persons fully engaged in apostolic ministry or occupied with the demands of ordinary life as lay women and men were at the same time engaged in conscious spiritual practices that sought the interior exchange of the heart of Jesus for the human heart

Moving into the Ecumenical Future John W. Crossin OSFS, 2022-11-11 Moving into the Ecumenical Future identifies some necessary foundations of any paradigm for Ecumenical Ethics It emphasizes the guidance of the Holy Spirit the teaching and example of Jesus biblical foundations and pastoral relationships in developing paradigms for Ecumenical Ethics The book suggests that virtue ethics is an important paradigm that includes these elements The text explores how the Faith and Order Tool Receptive Ecumenism Differentiated Consensus Internal Polarities and Spiritual Discernment can be used to move toward moral consensus The author calls for a national or international task force to explore these foundations in greater depth

A Literary Cavalcade-VII Robert A. Parker, 2017-04-19 Writer and editor Robert A Parker has followed up his six volume A Literary Cavalcade with a seventh volume This volume of criticism covers mainly the fiction he has read from 2013 to early 2017 His comments are informed by his Jesuit upbringing but also by an independent critical view that balances a moral and literary sensibility The writers here represent a broad range of writing styles cultural influences and moral philosophies And all are rated on their literary achievement the effectiveness of plot character and setting plus their recognition of the moral ethical and spiritual values of mankind Here is a unique critical perspective that measures the meaning of literature against the meaning of life

The Oxford History of British and Irish Catholicism, Volume I James E. Kelly, John McCafferty, 2023-09-01 The first volume of The Oxford History of British Irish Catholicism explores the period 1530 1640 from Henry VIII's break with Rome to the outbreak of the civil wars in Britain and Ireland It analyses the efforts to create Catholic communities after the officially implemented change in religion as well as the start of initiatives that would set the course of British and Irish Catholicism including the beginning of the missionary enterprise and the formation of a network of exile religious institutions such as colleges and convents This work explores every aspect of life for Catholics in both islands as they came to grips with the constant changes in religious policies that characterised this 110 year period Accordingly there are chapters on music on literature in the vernaculars on violence and martyrdom and on the specifics of the female experience Anxiety and the challenges of living in religiously mixed societies gave rise to new forms of creativity in religious life which made the Catholic experience much more than either

plain continuity or endless endurance Antipopery or the extent to which Catholics became a symbolic antitype for Protestants became in many respects a kind of philosophy about which political life in England Scotland and colonised Ireland began to revolve At the same time the legal frameworks across both Britain and Ireland which sought to restrict fine or exclude Catholics from public life are given close attention throughout as they were the daily exigencies which shaped identity just as much as devotions liturgy and directives emanating from the Catholic Reformation then ongoing in continental Europe

Comparing Faithfully Michelle Voss, 2016-09-01 Every generation of theologians must respond to its context by rearticulating the central tenets of the faith Interreligious comparison has been integral to this process from the start of the Christian tradition and is especially salient today The emerging field of comparative theology in which close study of another religious tradition yields new questions and categories for theological reflection in the scholar s home tradition embodies the ecumenical spirit of this moment This discipline has the potential to enrich systematic theology and by extension theological education at its foundations The essays in Comparing Faithfully demonstrate that engagement with religious diversity need not be an afterthought in the study of Christian systematic theology rather it can be a way into systematic theological thinking Each section invites students to test theological categories to consider Christian doctrine in relation to specific comparisons and to take up comparative study in their own contexts This resource for pastors and theology students reconsiders five central doctrines of the Christian faith in light of focused interreligious investigations The dialogical format

of the book builds conversation about the doctrine of God theodicy humanity Christology and soteriology Its comparative essays span examples from Hindu Buddhist Jewish Muslim Jain and Confucian traditions as well as indigenous Aztec theology and contemporary spiritual but not religious thought to offer exciting new perspectives on Christian doctrine *Cadets on Campus* John A. Coulter, 2017-03-24 Since the founding of the United States Military Academy at West Point in 1802 more than eight hundred military schools have existed in this country The vast majority have closed their doors been absorbed into other educational institutions or otherwise faded away but others soldier on adapting to changing times and changing educational needs While many individual institutions have had their histories written or their stories told to date no single book has attempted to explore the full scope of the military school in American history *Cadets on Campus* is the first book to cover the origin history and culture of the nation's military schools secondary and collegiate and this breadth of coverage will appeal to historians and alumni alike Author John Alfred Coulter identifies several key figures who were pivotal to the formation of military education including Sylvanus Thayer the father of West Point and Alden Partridge the founder of the school later known as Norwich University the first private military school in the country He also reveals that military schools were present across the nation despite the conventional wisdom that most military schools and indeed the culture that surrounds them were limited to the South Coulter addresses the shuttering of military schools in the era after the Vietnam War and then notes a curious resurgence of interest in military education since the turn of the century *Unleashed* Sonja Corbitt, 2015-04-27 Sonja Corbitt was an evangelical Baptist before she converted to Catholicism In *Unleashed* she shares her passion for the scriptures by weaving the Word of God with her own experiences to show readers how the Holy Spirit flows through their lives in relationships prayer and even in times of suffering Sonja Corbitt's passionate faith and natural storytelling ability combine to create a refreshing message of how God in his continual pursuit of us speaks to us through the positive and painful circumstances of life relationships and his Word In *Unleashed* Corbitt testifies that prayerful and regular study of the scriptures is the key to hear the voice of God to see the Holy Spirit at work even in times of suffering and to receive all the graces God wants to give Corbitt has been captivating Catholic women across the country with her message about God and his desire to know them in a deep and personal way Endorsed by her bishop as a credit to her faith Corbitt inspires Catholics everywhere to engage with the scriptures with renewed vigor and energy **Like the First Morning** Michael J. Ortiz, 2015-04-17 In *Like the First Morning* acclaimed author and teacher Michael J Ortiz presents both a literary and a deeply personal approach to the Morning Offering a popular form of daily prayer practiced by millions of Catholics worldwide The book reveals the depth of this simple devotion showing how a daily offering up of prayers works joys and sufferings renews every aspect of life and inspires the reader to live each day with greater intentionality and joy *Like the First Morning* reflects upon the Morning Offering a popular and beloved Catholic devotion prayed at the start of each day to consecrate the day to Christ Michael Ortiz a religion and English teacher and author of *Swan Town* draws from theologians

popes poets novelists philosophers mystics and saints to help readers to become more fully aware of the beauty of God's creation and be more open to his grace This unique book of Catholic spirituality consists of fourteen short lyrical chapters each centered on a key phrase of the prayer The fresh approach to this ancient practice will appeal to those who seek inspiration to continue this form of daily prayer as well as those who are unfamiliar with the devotion who want to deepen their prayer life

Edward and George Herbert in the European Republic of Letters Greg Miller, Anne-Marie Miller-Blaise, 2022-08-09 George Herbert 1593-1633 the celebrated devotional poet and his brother Lord Herbert of Cherbury 1583-1633 often described as the father of English deism are rarely considered together This collection explores connections between the full range of the brothers' writings and activities despite the apparent differences both in what they wrote and in how they lived their lives More specifically the volume demonstrates that despite these differences each conceived of their extended republic of letters as militating against a violent and exclusive catholicity theirs was a communion in which contention or disputation served to develop more dynamic forms of comprehensiveness The literary philosophical and musical production of the Herbert brothers appears here in its full European context connected as they were with the Sidney clan and its investment in international Protestantism The disciplinary boundaries between poetry philosophy politics and theology in modern universities are a stark contrast to the deep interconnectedness of these pursuits in the seventeenth century Crossing disciplinary and territorial borders contributors discuss a variety of texts and media including poetry musical practices autobiography letters council literature orations philosophy history and nascent religious anthropology all serving as agents of the circulation and construction of transregionally inspired and collective responses to human conflict and violence We see as never before the profound connections face to face as well as textual linking early modern British literary culture with the continent
