counter the image of Haiti as primitive as well as contain popular organization and leadership outlawed spells and later superstitious practices While not often strictly enforced these laws were at times the basis for attacks on Vodou by the Haitian state the Catholic Church and occupying U S forces Beyond such offensives Ramsey argues that in prohibiting practices considered essential for maintaining relations with the spirits anti Vodou laws reinforced the political marginalization social stigmatization and economic exploitation of the Haitian majority At the same time she examines the ways communities across Haiti evaded subverted redirected and shaped enforcement of the laws Analyzing the long genealogy of anti Vodou rhetoric Ramsey thoroughly dissects claims that the religion has impeded Haiti s development

The Globe and Anchor Men Mark Ryland Folse, 2024-04-18 Throughout the World War I era the United States Marine Corps efforts to promote their culture of manliness directed attention away from the dangers of war and military life and towards its potential benefits As a military institution that valued physical mental and moral strength the Marines created an alluring image for young men seeking a rite of passage into manhood Within this context the potential for danger and death only enhanced the appeal Mark Ryland Folse s *The Globe and Anchor Men* offers the first in depth history of masculinity in the Marine Corps during the World War I era White manhood and manliness constituted the lens through which the Marines of this period saw themselves how they wanted the public to see them and what they believed they contributed to society Their highly gendered culture helped foster positive public relations allowing Marines to successfully promote the potential benefits of becoming a Marine over the costs even in times of war By examining how the Marine Corps culture public image and esteem within U S society evolved Folse demonstrates that the American people measured the Marines usefulness not only in terms of military readiness but also according to standards of manliness set by popular culture and by Marines themselves The Marines claimed to recruit the finest specimens of American manhood and make them even better strong brave and morally upright They claimed the Marine would be a man with a wealth of travel and experience behind him He would be a proud and worthy citizen who had earned respect through his years of service training and struggle in the Marine Corps Becoming a Marine benefited the man and the new Marine benefited the nation As men became manlier the country did too
