Blood of the Tiger J. A. Mills, 2015-11-24 Blood of the Tiger takes readers on a wild ride to save one of the world's rarest animals from a band of Chinese billionaires Many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming There may be only three thousand wild tigers left in the entire world More shocking is the fact that twice that many some six thousand have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine tiger skin d cor and exotic cuisine enjoyed by China's elite Two decades ago international wildlife investigator J A Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild In this memoir of triumph heartbreak and geopolitical intrigue Mills and a host of heroic comrades try to thwart a Chinese cadre's plan to launch billion dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos Her journey takes her across Asia into the jungles of India and Nepal to Russia and Africa traveling by means from elephant back to presidential motorcade in the company of man eaters movie stars and world leaders She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland Set against the backdrop of China's ascendance to world dominance Blood of the Tiger tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals
