Boeken vor de katholieke jeugd Karen Ghonem-Woets, 2011-05-20 Wanneer je oudere mensen vraagt naar de jeugdboeken die hen zijn bijgebleven dan is de kans groot dat ze Arendsoog noemen Pim Pandoer of zeker als ze katholiek zijn opgevoed Puk en Muk Jongere generaties kennen Arendsoog vaak ook nog maar zijn toch meer bekend met de Griezelsbus verhalen van Paul van Loon de Maan Roos Vis boekjes of de tijdschriften Okki en Taptoe Al deze titels werden of worden op de markt gebracht door de Tilburgse uitgeverij Zwijsen of het Bossche Malmberg Beide uitgeverijen bestaan al meer dan 125 jaar Ze begonnen als specifiek katholieke uitgeverijen maar ontwikkelden zich gaandeweg tot toonaangevende uitgeverijen voor de hele Nederlandse jeugdboekenmarkt In deze uitgave blikt auteur Karen Ghonem Woets terug op de titels die in de loop der jaren bij Zwijsen en Malmberg verschenen Zij onderzoekt vragen als Wat voor relatie is er tussen hun school en hun jeugdboeken en hoe kwam in de jaren 20 en 30 de tijd van het Rijke Roomsche Leven het katholieke karakter tot uitdrukking in de samenstelling van de fondsen van beide uitgeverijen Welke strategieën hanteerden zij om de ontzuiling zo glansrijk te doorstaan terwijl vrijwel alle andere van oorsprong katholieke uitgeverijen langzaam van het speelveld verdwenen **LVS - Spelling: Toetsen 1-6, herwerkte versie - Basisboek** Geert Deloof, Deze deelpublicatie van het LVS VCLB omvat toetsen van spelling voor de leerjaren 1 tot en met 6 **Precursors of Functional Literacy** Ludo Th Verhoeven, Carsten Elbro, Pieter Reitsma, 2002-01-01 The purpose of this volume is to present recent research in the field of the acquisition of functional literacy and its precursors The volume aims to capture the state of the art in this rapidly expanding field An attempt is made to clarify the vague and often inconsistent definitions of functional literacy from the perspective of development Cognitive linguistic educational and social factors of literacy development are all taken into account The volume consists of three subsequent parts The first part goes into phonological precursors of literacy development In this part the focus is on the development of early language precursors of reading and writing The cultural foundations of these precursors are explored and their links with reading development are dealt with in detail Different psycholinguistic approaches are also proposed to explain the occurrence of literacy problems In the second part the scope is on the constraints of reading and writing efficiency at the word level and beyond The acquisition of reading and writing is seen as a result from the interaction between phonological orthographic and semantic processes A crosslinguistic perspective is taken on the role of writing system factors in the acquisition of literacy skills The final part deals with the role of social and educational factors in literacy acquisition Starting from a crosscultural perspective the central issue is how the attainment of functional literacy is dependent on sociocultural variation The predictors of more advanced levels of literacy development are considered including foreign language literacy and adult literacy Acquisition of Reading in Dutch Pieter Reitsma, Ludo Verhoeven, 2016-04-11 No detailed description available for Acquisition of Reading in Dutch Boek en Jeugd 4-12, 2005, 2005 **Basic Processes in Early Second Language Reading** Esther Geva, Ludo Verhoeven, 2014-08-27 The

four articles in this issue represent recent developments in the study of basic processes in L2 reading at the primary level. The research reported reflects the array of theoretical and instructional issues targeted currently by researchers who wish to understand L2 reading development in young children. Ultimately this research should be used to help policymakers and educators make better informed decisions about how L2 literacy instruction can be enhanced across various sociocultural and linguistic boundaries.

Ethnic Minorities and Dutch as a Second Language Guus Extra, Ton Wallen, 2011-07-22 Language acquisition is a human endeavor par excellence. As children all human beings learn to understand and speak at least one language their mother tongue. It is a process that seems to take place without any obvious effort. Second language learning particularly among adults causes more difficulty. The purpose of this series is to compile a collection of high quality monographs on language acquisition. The series serves the needs of everyone who wants to know more about the problem of language acquisition in general and/or about language acquisition in specific contexts.

Developmental Perspectives in Written Language and Literacy Eliane Segers, Paul van den Broek, 2017-12-15 Research on the development of written language and literacy is inherently multidisciplinary. In this book leading researchers studying brain cognition and behavior come together in revealing how children develop written language and literacy, why they may experience difficulties, and which interventions may help those who struggle. Each chapter provides an overview of a specific area of expertise focusing on typical and atypical development, providing steps for future research and discussing practical implications of the work. The book covers areas of bilingualism, dyslexia, reading comprehension, learning to read, atypical populations, intervention, and new media. Thus the book presents a comprehensive overview of the current state of affairs in this field of research. The various book chapters have been written by researchers who all have collaborated at some point in their careers with Ludo Verhoeven, whose research sets the example for the importance of crossing disciplinary borders to research to take the next important steps. The combination of the research in this book sets the stage for future research that connects various fields and hopes to inspire anyone interested in the development of written language and literacy.
