JA Banks

Verdi's Theater Creating Drama Through:

Verdi's Theater Gilles de Van, 1998-09-15 But in the musical drama reality begins to blur the musical forms lose their excessively neat patterns and doubt and ambiguity undermine characters and situations reflecting the crisis of character typical of modernity Indeed much of the interest and originality of Verdi's operas lie in his adherence to both these contradictory systems allowing the composer dramatist to be simultaneously classical and modern traditionalist and innovator

Verdi's Exceptional Women: Giuseppina Strepponi and Teresa Stolz Caroline Ellsmore, 2017-12-14 This investigation offers new perspectives on Giuseppe Verdi's attitudes to women and the functions which they fulfilled for him The book explores Verdi's professional and personal relationship with women who were exceptional within the traditional socio-sexual structure of patriarchy in the context of women's changing status in nineteenth century Italian society It focusses on two women the singers Giuseppina Strepponi who supported and enhanced Verdi's creativity at the beginning of his professional life and Teresa Stolz who sustained his sense of self-worth at its end Each was an essential emotional benefactor without whom Verdi's career would not have been the same The subject of the Strepponi-Verdi marriage and the impact of Strepponi's past deserve further detailed and nuanced discussion This book demonstrates Verdi's shifting power balance with Strepponi as she sought to retain intellectual self-respect while his success and control increased The negative stereotypes concerning operatic divas do not withstand scrutiny when applied either to Strepponi or to Stolz This book presents a revisionist appraisal of Stolz through close examination of her letters Revealing Stolz's value to Verdi they also provide contemporary operatic criticism and behind-the-scenes comment some excerpts of which are published here in English for the first time

The Cambridge Companion to Verdi Scott L. Balthazar, 2004-11-18 This 2004 Companion provides a biographical theatrical and social-cultural background for Verdi's music examines in detail important general aspects of its style and method of composing and synthesizes stylistic themes in discussions of representative works Aspects of Verdi's milieu style creative process and critical reception are explored in essays by highly reputed specialists Individual chapters address themes in Verdi's life his role in transforming the theater business and his relationship to Italian Romanticism and the Risorgimento Chapters on four operas representative of the different stages of Verdi's career *Ernani* *Rigoletto* *Don Carlos* and *Otello* synthesize analytical themes introduced in the more general chapters and illustrate the richness of Verdi's creativity The Companion also includes chapters on Verdi's non-operatic songs and other music his creative process and scholarly writing about Verdi from the nineteenth century to the present day

Verdi, Opera, Women Susan Rutherford, 2013-11-07 Prologue Verdi and his audience War Prayer Romance Sexuality Marriage Death Laughter

The Sounds of Paris in Verdi's *La traviata* Emilio Sala, 2013-05-09 How did Paris and its musical landscape influence Verdi's *La traviata* In this book Emilio Sala re-examines *La traviata* in the cultural context of the French capital in the mid-nineteenth century Verdi arrived in Paris in 1847 and stayed for almost two years there he began his relationship

with Giuseppina Strepponi and assiduously attended performances at the popular theatres whose plays made frequent use of incidental music to intensify emotion and render certain dramatic moments memorable to the audience. It is in one of these popular theatres that Verdi probably witnessed one of the first performances of Dumas' *La Dame aux camélias* which became hugely successful in 1852. Making use of primary source material including unpublished musical works, journal articles and rare documents and images, Sala's close examination of the incidental music of *La Dame aux camélias* and its musical context offers an invaluable interpretation of *La traviata*'s modernity.

National Traditions in Nineteenth-Century Opera, Volume I Steven Huebner, 2017-03-02 This volume covers opera in Italy, France, England and the Americas during the long nineteenth century (1789-1914). The book is divided into four sections that are thematically rather than geographically conceived: Places (essays centering on contexts for operatic culture), Genres and Styles (studies dealing with the question of how operas in this period were put together), Critical Studies (of individual works exemplifying particular critical trends) and Performance.

Tragic Manhood and Democracy David A. J. Richards, 2004 What is tragedy? This work argues that it is at once art and science, an absorbing art and precisely observed empirical inquiry into human psychology whose subject matter is the dilemma of manhood under democracy. The author expands discussion of the idea of the tragic to include music drama in general and the operas of Verdi in particular and explores the indispensable contribution of tragedy to an understanding of personal and political psychology through discussion of the political theory of structural injustice resting on the suppression of voice, underlying evils like racism, sexism and homophobia, a developmental psychology of gender drawing on the work of Carol Gilligan, the Harvard Project on Women's Psychology, Boy's Development and the Culture of Manhood, and an interpretation of tragic art including the expressive role of music in it. Exploration of the tragic impact of patriarchy on democratic voice is at the heart of the power and appeal of Verdi's innovations in musical voice. At its core is a complex psychic geography of patriarchal practices imposed on personal and political relationships: parents to children, siblings to one another and adult men and women. Such practices, fundamental to the family, politics and religion, enforce demands by forms of physical and psychological violence directed by men and women at anyone who deviates from its demands. Verdi's tragic musical drama speaks of an emotional loss that literally cannot under patriarchy be spoken, namely what the author calls the tragedy of patriarchy: a divided psychology that lives in the tension between patriarchal practices and democratic principles and between the psychological demands of patriarchy and democratic manhood.

Women's Voices Across Musical Worlds Jane A. Bernstein, 2004 This book is the first to explore the musical activities and expressions of women from a thematic perspective. Written by a distinguished group of musicologists and ethnomusicologists, the essays collected here provide a cross-cultural and cross-historical view of the roles women have played as creators and performers and the representation of women in world popular and western art music. Organized in five sections, the readings deal with a broad spectrum of topics and approaches about women, gender and sexuality in music across Asia, Europe, the

Middle East and the Americas from the twelfth century to the present Included are such significant themes as class and sexual politics in domestic and professional music making the sequestration of female musical performance the lament gender identity through performance and women singers as empowered voices of the people In celebrating the diversity of women s musical voices this eclectic collection will appeal to students scholars and general readers interested in music history world music and women s studies 01 **Proceedings of the international conference, Parma, New York, New Haven, 24 gennaio-1. febbraio 2001** Fabrizio Della Seta,Roberta Montemorra Marvin,Marco Marica,2003 **From Fiction to Libretto** Nassim Winnie Balestrini,2005 This study introduces the reader to the mostly unknown world of libretto adaptations of nineteenth century American fiction The analysis of stage works based on Washington Irving s Rip Van Winkle Nathaniel Hawthorne s The Scarlet Letter and Henry James s Washington Square explores a largely unexamined area of the reception history of these authors and narratives As opera and drama have been interlinked throughout American theater history the discussion of adaptations will include multiple types of spoken and musical theater Appendices documenting the existence of over 350 stage works based on nineteenth century American fiction further illustrate how librettists composers and playwrights have participated in the endeavor to understand and contextualize literary texts within cultural history

Journal of the American Musicological Society American Musicological Society,1998 **Nineteenth-century Studies**,2001 *Current Contents. Arts & Humanities* Institute for Scientific Information, Opera Denise P. Gallo,2006
