4.3.1 *Before Starting Engines Check*

A minimum of one person qualified to operate aircraft engines must be seated in a pilot seat when an aircraft engine is started or running. Engines will be started utilizing the proper checklist procedures. Before starting an engine, the immediate area around the aircraft must be visually checked for potential hazards to ensure a safe start. Pilots should make an effort to have a helicopter landing officer (HLO) or helicopter landing assistant (HLA) act as an outside observer during engine starts whenever practical.
