Treatise On Living Thinking A:

A Treatise Living and Thinking Massimo Scaligero, 2015-08-01 This treatise though logically formulated and accessible proposes a task that few can probably actualize Its thoughts are assembled so that retracing them becomes the proposed experience This experience insofar as it is realized is not merely one of many possibilities but an experience of our inner essence which the spirit demands of us at the present time The treatise cannot be refuted philosophically since it is based on a kind of experience that must be achieved if we wish to have a means by which to question it However those who are able to achieve it begin to live within a thinking that penetrates the world It is the thinking that is the truth of all theories and of none because it is their pre dialectical substance By experiencing the thoughts presented we can experience the power of concentration or the tangible presence of the spirit the path of living thinking the transcendence present but not cognized in each thought that we think

The Neoplatonic philosopher Plotinus invites us to take part in his philosophizing when he encourages his readers to think about what they think they are as living beings human beings as rational beings ethical subjects and as philosophers He is interested in what we say about ourselves in ordinary language and notices that such ordinary experience conflicts with what the Platonic tradition claims we truly are This conflict does not lead him to turn away from the human terms and expressions but impels him to take seriously what we say about ourselves and to explain it philosophically [Eclectic Magazine, and](#)

Daniels, 2021-09-21 From a Christian perspective it could well be said that humanity a good gift of God is being undermined by the technology and thought patterns and practices of contemporary Western culture In response to what is seen as an attack many books have been written on the harm of these technologically driven practices These articles and books focus on

what is wrong with euthanasia with surrogate motherhood with the denial of the male female difference and so forth Yet to make a compelling cultural witness it is more important for Christians to know what is right and essential that they be able to articulate the positive Why do babies matter What is the goodness embedded in being made male and female How can one approach death in a godly manner We need in other words to be able to give an account of God s Yes 2 Cor 1 20 the hope that is within us 1 Peter 3 15 In this collection of essays an ecumenical group of scholars of diverse perspectives discuss these and other important questions in order to help discern what is good for humanity With contributions by Phillip Cary Donna Freitas Paul Hinlicky Edith M Humphrey Patrick Lee Gilbert Meilaender Nancey Murphy Stone ,1893
