Treatment Plan															
Short term goals Find motivation to complete work tasks on time, and regain interest in hobbies. Work towards developing better sleep patterns and being able to fall asleep faster.															
Long term goals Increase self-esteem and alleviate depressed mood															
Current sleeping patterns Sleeping around 5 hours a night, max. Difficulty in falling asleep, and staying asleep.															
Current exercise patterns If a positive week, Brad finds the time to exercise with a 30 minute walk.															
Medications None currently - aim to prescribe melatonin for sleep.															
Interventions Incorporate productivity techniques and melatonin to improve sleep schedule. Aim to exercise regularly to increase motivation and self-esteem.															
Additional Notes This is Brad's first appointment with me, and demonstrates mild to moderate depression. Standard interventions will be monitored before considering alternative treatment in 2 weeks time.
