Metaphorical Practices in Architecture Sarah Borree, Stephanie Knuth, Moritz Röger, 2023-06-23 Metaphors are diversly and intricately embedded in architectural practice and discourse Precisely for this reason this volume argues and sets out to explore how they can be engaged to critically interrogate architecture s social cultural and political dimensions past and present and to productively challenge and intervene with established perspectives debates and practices Mapping out not just potentials but also addressing the challenges limitations and dangers inherent in using metaphors in architectural research and practice the volume prominently illustrates the ambiguity and contradictoriness inherent in both metaphors and the process of engaging and exploiting them Covering a broad range of historical and geographical cases and concerns the contributions illustrate effectively that metaphors can expand or narrow our engagement with architecture and consolidate or legitimise but also destabilise and challenge established social cultural disciplinary and political structures concepts and categories With its aim to explore metaphors as both subject and method to critically challenge and expand established practices perspectives and standards in architectural research and practice the volume will be of interest for scholars

working across the architectural humanities including architectural history theory culture design and urbanism as well as for researchers concerned with architecture and the city from fields such as cultural visual and area studies as well as art history

The Future of Architecture in 100 Buildings Marc Kushner, 2015-03-10 The founder of Architizer.com and practicing architect draws on his unique position at the crossroads of architecture and social media to highlight 100 important buildings that embody the future of architecture We're asking more of architecture than ever before the response will define our future A pavilion made from paper A building that eats smog An inflatable concert hall A research lab that can walk through snow We're entering a new age in architecture one where we expect our buildings to deliver far more than just shelter We want buildings that inspire us while helping the environment buildings that delight our senses while serving the needs of a community buildings made possible both by new technology and repurposed materials Like an architectural cabinet of wonders this book collects the most innovative buildings of today and tomorrow The buildings hail from all seven continents to say nothing of other planets offering a truly global perspective on what lies ahead Each page captures the soaring confidence the thoughtful intelligence the space age wonder and at times the sheer whimsy of the world's most inspired buildings and the questions they provoke Can a building breathe Can a skyscraper be built in a day Can we 3D print a house Can we live on the moon Filled with gorgeous imagery and witty insight this book is an essential and delightful guide to the future being built around us a future that matters more and to more of us than ever

On Site Diagnostics for Architectural Conservation and Restoration Alessia Bianco, 2017-07 The topic of on site diagnostics for historical monumental and vernacular architecture is

characterized by a twofold difficulty partially due to a sort of hiatus between the scientific community and a professional system. In fact, on one side, universities and research centres produce advanced technologies, methodologies and procedures, but they are not always adequately disseminated among professionals and are sometimes inconsistent with some relevant criteria such as feasibility and cost effectiveness. On the other side, professionals in the field of on-site diagnostics for historical architectures are holding a heritage made of experiences and practice which often is not enough shared and sometimes is contrasting with the limited possibilities to evaluate and verify the professional training and certification system which seems too heterogeneous if compared to other high scientific and technical professions as is the case, for example, in medicine or engineering. In this book, the diagnostic experiences are described, though for logistical reasons often briefly following a systematic methodological approach according to three of the main steps for the knowledge of historical buildings: anamnesis, diagnosis and prognosis, obviously with particular attention to the specifically diagnostic issues, diagnosis, but framed in the preliminary diagnostic plan and interpreted in the light of the performance prefigured in the preliminary stages and connected to the visual inspection. That is why this book regards not only some experimental, unconventional and innovative diagnostic surveys and diagnostic experiences carried out on particularly valuable monumental buildings under the historical architectural point of view, but also ordinary and simple experiences in the field of professional diagnostic practice where, however, it was possible to apply the methodology and the know-how acquired and systematized in the performance of the experimental diagnostic surveys often included in wider scientific research projects. This book is not exclusively addressing the scientific and academic community, but it also pursues the aim of disseminating in the professional system a heritage of rather varied experimental researches and practical experiences, but methodologically oriented toward a culture which considers the design of diagnostic plans as a regulation criterion for quality control of professionals.

[eddy field measurement by using search coils for bending magnet](#) - Jul 02 2022

web fields in a bending magnet have been measured the mag net was excited by a sinusoidal current with a repetition of 30

hz two search coils were used in the measurements one is a reference coil and the other is a measurement coil an imaginary part of an eddy field was derived from phase difference between two coil signals the

the working of a linac the clinical oncology - Dec 27 2021

web nov 26 2019 beam bending magnets 1 90 degree bending magnet not really used as the exit position depends on magnet strength constant but also on beam energy variable 2 270 degree bending magnet used practically less variation with beam energy in the final focus exit point bulky system in head of linac 3 slalom bending

270 degree electron beam bending system using two sector magnets - May 12 2023

web the 270 degree doubly achromatic beam bending magnet system using two sector magnets has been designed mainly for treating cancer and skin diseases

magnetic design improvement and construction of the large 90o bending - Jan 28 2022

web requires a 70 tons 90 bending magnet providing 1.81 t in a good field region of x 100 by y 100 mm² with an integrated field quality $\leq 10^{-4}$ at all field levels 2 10 4 starting from the experience matured when constructing the large bending magnet for hicat gantry we have developed a design able to meet these more

considerations on the design of the bending magnet for beam - Jan 08 2023

web introduction the pefp proton engineering frontier project is designed to have two beam extraction lines at the 20 mev end and 100mev end for beam utilization as shown in figure 1 the mebt and 20mev proton beam extraction system of the pefp is composed of two buncher cavities beam extraction magnet and quadrupole doublet 1

lecture2 magnet design fermilab - Apr 11 2023

web definition of beam optics beam optics the process of guiding a charged particle beam from to b using magnets an array of magnets which accomplishes this is a transport system or magnetic lattice recall the lorentz force on a particle $f = ma = e v \times b = mv^2 / \rho$ where $m = \gamma m_0$ relativistic mass

lhc bending magnet coil cern document server - Nov 06 2022

web lhc bending magnet coil description a short test version of coil of wire used for the lhc dipole magnets the high magnetic fields needed for guiding particles around the large hadron collider lhc ring are created by passing 12 500 amps of current through coils of superconducting wiring

1 electromagnets fermilab - Apr 30 2022

web the magnetic field that results from powering the coils is present whether the beam is there or not we are interested in

finding the field in this aperture and also in knowing how to build a magnet to get the desired field typically accelerators and beamlines have magnets that serve individual functions

pulling together superconducting electromagnets cern - Dec 07 2022

web pulling together superconducting electromagnets particles zipping round the lhc at close to the speed of light must follow precise paths powerful magnets keep the beams stable accurate and safe the large hadron collider lhc is currently operating at the energy of 6.5 TeV per beam

magnetic coil an overview sciencedirect topics - Jun 01 2022

web the electron beam is bent by a toroidal magnetic coil at the beginning and end of the overlap region collisions between the continuously renewed electron beam and the ions serve to reduce the random motions of the ions leading to a high energy resolution

a simple method of coil design american journal of physics - Aug 15 2023

web aug 1 2018 share tools in this article we present a method to design a coil producing an arbitrarily shaped magnetic field by restricting the path of the coil's wires to a regular grid the solution is then found by a simple least squares minimum

linear accelerators linac springerlink - Feb 09 2023

web two pairs of magnetic coils are usually placed near the entrance far end of the waveguide to bend the direction of electron beam radially and transversely these are called directional bending magnetic coils

frontiers figure eight coils for magnetic stimulation from - Feb 26 2022

web the coil is bent at an acute angle at the center between the left and right wings the bending forces the coil to conform to the shape of the human head moreover it results in an increased depth of the induced electric fields in the brain

electromagnetic coil wikipedia - Jun 13 2023

web an electromagnetic coil is an electrical conductor such as a wire in the shape of a coil spiral or helix electromagnetic coils are used in electrical engineering in applications where electric currents interact with magnetic fields in devices such as electric motors generators inductors electromagnets transformers and

web number of conductor turns in a coil is n magnetic field strength H 1 Oe 103.4 A/m 79.58 A/m mmf magnetic flux 1 Wb 1 Vs assignment design a 90 degree bending magnet for beam analysis with the duoplasmatron

the electromagnet magnetic coil and permeability - Sep 04 2022

web where H is the strength of the magnetic field in ampere turns/metre at m N is the number of turns of the coil I is the current flowing through the coil in amps l is the length of the coil in metres m then to summarise the strength or intensity of a coil's magnetic field depends on the following factors the number of turns of wire within the coil

superconducting magnet wikipedia - Mar 30 2022

web a superconducting magnet is an electromagnet made from coils of superconducting wire they must be cooled to cryogenic temperatures during operation in its superconducting state the wire has no electrical resistance and therefore can conduct much larger electric currents than ordinary wire creating intense magnetic fields
