Naughty and Nice GC Burnell, Surely to be heterosexual partly means that we find a good looking woman who is naked very attractive in some way We define sex phobic as when there is a denial of that And I argue that these days we have a very sex phobic society But this causes sexual repression The book aims to encourage our young men and not so young men why not to go back to admiring a bit of ass and maybe start doing things again to show that they do like frequenting strip clubs reading erotic fiction not just to increase the sales of my books etc Strip clubs have been suffering recently from a relative unpopularity And I notice that my local quite big bookshop stocks only about 6 books of erotic fiction

Discover Your Inner Economist Tyler Cowen, 2008-05-27 One of America's most respected economists presents a quirky incisive romp through everyday life that reveals how you can turn economic reasoning to your advantage often when you least expect it to be relevant Like no other economist Tyler Cowen shows how economic notions such as incentives signals and markets apply far more widely than merely to the decisions of social planners governments and big business What does economic theory say about ordering from a menu Or attracting the right mate Or controlling people who talk too much in meetings Or dealing with your dentist With a wryly amusing voice in chapters such as How to Control the World The Basics and How to Control the World Knowing When to Stop Cowen reveals the hidden economic patterns behind everyday situations so you can get more of what you really want Readers will also gain less selfish insights into how to be a good partner neighbor and even citizen of the world For instance what is the best way to give to charity The chapter title How to Save the World More Christmas Presents Won't Help makes a point that is every bit as personal as it is global Incentives are at the core of an economic approach to the world but they don't just come in cash In fact money can be a disincentive Cowen shows why for example it doesn't work to pay your kids to do the dishes Other kinds of incentives like making sure family members know they will be admired if they respect you can work Another non-monetary incentive Try having everyone stand up in your next meeting if you don't want anyone to drone on Deeply felt incentives like pride in one's work or a passing smile from a loved one can be the most powerful of all even while they operate alongside more mundane rewards such as money and free food Discover Your Inner Economist is an introduction to the science of economics that shows it to be built on notions that are already within all of us While the implications of those ideas lead to Cowen's often counterintuitive advice their wisdom is presented in ordinary examples taken from home life work life and even vacation life How do you get a good guide in a Moroccan bazaar

Journalism's Roving Eye John Maxwell

Hamilton,2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In Journalism s Roving Eye John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism s constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting Journalism s Roving Eye offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead **The Unknown Henry Miller** Arthur Hoyle,2016-08-02 Henry Miller was one of the most distinctive voices in twentieth century literature yet he

remains misunderstood Better known in Europe than in his native America for most of his career he achieved international success and celebrity during the 1960s when his banned Paris books beginning with *Tropic of Cancer* were published here and judged by the Supreme Court not to be obscene *The Unknown Henry Miller* recounts Miller's career from its beginnings in Paris in the 1930s but focuses on his years living in Big Sur California from 1944 to 1961 during which he wrote many of his most important books including *The Rosy Crucifixion* trilogy married and divorced twice raised two children painted watercolors and tried to live out a credo of self realization Written with the cooperation of the Henry Miller and Ana's Nin estates *The Unknown Henry Miller* draws on material previously unavailable to biographers including interviews with Lepska Warren Miller's third wife Behind the bad boy image Arthur Hoyle finds a man whose challenge of literary sexual taboos was part of a broader assault on the dehumanization of man and commercialization during the postwar years and he makes the case for restoring this groundbreaking writer to his rightful place in the American literary canon Skyhorse Publishing along with our Arcade Good Books Sports Publishing and Yucca imprints is proud to publish a broad range of biographies autobiographies and memoirs Our list includes biographies on well known historical figures like Benjamin Franklin Nelson Mandela and Alexander Graham Bell as well as villains from history such as Heinrich Himmler John Wayne Gacy and O J Simpson We have also published survivor stories of World War II memoirs about overcoming adversity first hand tales of adventure and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home
